REPORT OF THE COLLEGE COMMITTEE.

STUDENTS AND FEES.

SESSION 1929–1930.

The number of Students, other than Evening and Vacation Students, who registered during the Session 1929–30 was 2677, being an increase of 76 as compared with the preceding Session. There were 457 Postgraduate and Research Students, as against 523 in the previous Session, the decrease being due to the closing of the Postgraduate Department of Hygiene and Public Health. The number of Evening Students was 398, being a decrease of 43. Vacation Courses were attended by 158 persons, of whom 58 were not regular Students of the College. Adding these figures together, the total number of registered Students is 3150, which is a decrease of 99 on the previous year. This decrease is more than accounted for by the fact that there was no Vacation Course in Spoken English for Foreign Students (the attendance at which is normally over 200) in 1929. On the other hand, the figures for two Librarianship Vacation Schools are given, one being held in the summer of 1929 and the other at Easter 1930; in the corresponding return of last year no Librarianship Vacation School figure was included, owing to the time of year at which the School was held. The Students were distributed as follows:—

[The figures for the previous Session are shown in brackets.]

* Figure includes 63 students (50 men and 13 women) also included under III. Faculty of Medical Sciences.

† Figure includes 20 students also included under I. Faculty of Arts, (*d*) School of Librarianship.

There were 1584 [1466] Students working for Degrees and 717 [700] for Diplomas.

The geographical districts from which the Students came are given in Appendix I. (see p. 90).

Public Lectures in the College were attended by 12,550 persons [14,450], the aggregate attendance being 28,602 [29,590].

The total fees available for the Session 1929–30 amounted to £74,039 2*s.* 4*d.* The increase in fees received as compared with the previous Session was £5,401 3*s.* 11*d.*

THE CURRENT SESSION (1930–31).

The number of Students who have completed their registration and paid fees up to January 31st, 1931, is 2945, as compared with 2865 at the corresponding date in 1930.

The fee revenue (including fees of London County Council and Board of Education Students) to January 31st, 1931, amounts to £69,850, showing an increase of £1,454 as compared with the corresponding date in 1930.

GENERAL FINANCES.

Financial Year 1929–30.

The Accounts for the year ended 31st July, 1930, are appended to this Report (Appendix II., pp. 93–109).

College Establishment Income and Expenditure Account.

Income.—The ordinary income amounted to £212,321 15*s.* 3*d.* as compared with £202,258 5*s.* 4*d.* in 1928–29, an increase of £10,063 9s. 11*d.* The improved position, as compared with 1928–29, is mainly accounted for by an increased income from Endowment and Fees.

Expenditure.—The ordinary expenditure amounted to £206,651 12*s.* 7*d.* as compared with £200,186 13*s.* 4*d.* in 1928–29, an increase of £6,464 19*s.* 3*d.* The additional expenditure is due mainly to increases in the salaries of the professorial and non-professorial Members of the Staff, with consequential increased provision for superannuation benefits, and to increased expenditure on maintenance of premises.

The excess of ordinary income over ordinary expenditure for the Session 1929–30 was, therefore, £5,670 2*s.* 8*d.* After providing out of this £339 for the Pension Reserve Fund and for other Extraordinary Expenditure, amounting to £5,348 12*s.* 9*d.*, not covered by Extraordinary Income, there was a small deficit of £17 10*s.* 1*d.* Deducting this from the balance brought forward from 1928–29 (£2,580 5*s.* 10*d.*) the sum of £2,562 15*s.* 9*d.* remained to be carried forward to 1930–31.

The Balance Sheets.

Trust Funds.

The following sums have been added to Trust Funds Capital Account during the year (excluding the investment of dividends transferred from the Trust Funds Income and Expenditure Account):—

	£	*s.*	*d.*
Charles Heath Clark Fund—Capital handed over by Centenary Appeal Committee..	1,000	0	0
Kennedy Fund—Capital handed over by Centenary Appeal Committee	950	0	0
Commonwealth (American History Fund)—Capital handed over by Commonwealth Fund.....	44,014	2	1
Oliver Commemoration Fund — Capital handed over by Oliver Commemoration Fund Committee.....	433	8	6
Alice Gruner Fund—Capital handed over by the Executors of the late Miss Alice Gruner.....	172	9	7
Durning Lawrence Bequest—Capital handed over by the Executors of the late Lady Durning Lawrence.....	9,017	7	8

THE CENTENARY FUND.

The College Committee have, on the advice of the Executive Committee of the Centenary Appeal, closed the Appeal as from 31st July, 1930.

The Appeal was inaugurated in 1925, and its progress has been recorded from year to year in the pages of this Report. Its aims have not been fully realised, and there remains much to be done. The College Committee feel, however, that provision can best be made for the urgent needs that are still outstanding by treating them as separate entities, and not as part of a comprehensive general appeal.

The Final Report of the Executive Committee is contained in Appendix V. (pp. 115–119). It will be seen that a total sum of £227,764 6*s.* 1*d.* has been raised, and has been allocated as follows:—

Purpose.	*Sum received or promised.*
A. Great Hall	£26,149 1 8
B. Endowment of Teaching	86,130 13 11
C. Completion of Gower Street Front	361 1 9

The College Committee noted with great satisfaction the sum (£86,130 13*s.* 11*d.*) subscribed towards the Endowment of Teaching. This sum includes the gift of £30,000 from Mr. Cecil Harmsworth and Lord Rothermere for the endowment of the Lord Northcliffe Chair of Modern English Literature and the Lord Northcliffe Lectureship in Literature; and the gift of £25,000 from the Rockefeller Foundation of New York for the Endowment of the Chair of Pharmacology.

Having regard to the economic depression that has been prevalent in recent years, the College Committee feel that the Centenary Appeal Committee are much to be congratulated on the result of their efforts. They have expressed to Lord Meston, the Chairman of the Executive Committee, and through him to his Committee, their sense of the indebtedness that all sections of the College Community must feel to those who have worked so hard in its interests.

By accepting the office of Patron of the Centenary Fund, H.R.H. Prince Arthur of Connaught, an Honorary Fellow of the College, has given another indication of his interest in its welfare, and has done much to promote the success of the Appeal.

The College Committee heartily endorse the tributes that have been paid in the Report to the Viscount Chelmsford, the President of the Appeal, to Sir Robert Kindersley, the Honorary Treasurer, and to Dr. F. W. Goodbody, the Honorary Secretary.

Sir Gregory Foster, Bt., the Provost of the College during the major period of the Appeal, has been a source of strength and inspiration. He has used ungrudgingly in its interests his own

powers of initiative and organisation, and the guidance, based on long experience, that he has given to others has been of inestimable value.

This summary of the Centenary Appeal would not be complete without a reference to the great work that the late Dr. Walter Seton, the first Honorary Secretary, had done to launch it and give it its first impetus. When overtaken by his brief last illness, he was vigorously engaged in promoting the Appeal, and his untimely death in January 1927 brought a sense of almost irreparable loss. The friends who stepped into the breach, Dr. F. W. Goodbody and Dr. G. P. Crowden notably among them, earned the special gratitude of those who were most deeply concerned for the success of the Appeal.

The College Committee wish to take this opportunity of thanking all those who have subscribed to the Appeal. They feel that it is a source of considerable gratification that so many of the former students of the College are among them. The part played by the present students, through the two Union Societies, resulting in the addition of £2,772 to the Fund for the Great Hall, is also pleasant to record.

Outstanding Urgent Needs.

The problem of accommodation for the Faculties of Arts and Science is causing serious concern to the College Committee. The growth in the number of students in these Faculties has not been accompanied by a corresponding increase in accommodation. The present overcrowded condition has resulted.

A Joint Committee of the College Committee and the Professorial Board was recently appointed to consider the whole problem of accommodation in the College, with special reference to the Faculties of Arts and Science.

Reference was made in the last Annual Report to a scheme for the Department of Zoology and Comparative Anatomy which involved a total expenditure of £240,000 and to the generous offer of £120,000, contingent on a like sum being raised, either in capital or in permanent income (£6,000 a year), within a reasonable period.

In the course of the year the Court of the University have allocated a capital sum of £30,000 to the College towards the cost of better accommodation for the Department of Zoology and Comparative Anatomy. The new situation thus created is engaging the attention of the College Committee.

CENTENARY OF UNIVERSITY COLLEGE SCHOOL.

University College School was founded on 1st November, 1830, by some of the friends and Founders of the College (which was then the University of London), among them being Lord Brougham, James Mill, and Henry Hallam. The ideal that animated them sprang from the same desire for religious and educational freedom that underlay the foundation of the College, the main purpose of the School being to receive pupils without any distinction of class or creed, and to prepare them for higher studies in the new University.

The first Headmaster was the Rev. Henry Brown, M.A., who was soon succeeded by Mr. John Walker.

The School began its career at No. 16 Gower Street. In 1831 it was received within the walls of the College, and came under the

authority of the College Council. Thomas Hewitt Key, M.A., F.R.S., and Henry Malden, M.A., Professor of Greek at the College from 1831 to 1876, were Joint Headmasters from 1832 to 1842, Key continuing thereafter as sole Headmaster till his death in 1875. The School was first housed in the southern section of what is now the central portion of the main College Buildings. During the period 1869-1876 the new South Wing was built in three stages and became the quarters of the School. H. Weston Eve, M.A., was Headmaster from 1876 to 1898; J. Lewis Paton, M.A., from 1899 to 1903; H. J. Spenser, M.A., LL.D, from 1903 to 1916, the latter being succeeded by the present Headmaster, Guy Kendall, M.A.

The growth and development of both the School and the College made it impossible for them to find proper expansion under the same roof. In 1907 the School moved to its present spacious buildings in Frognal, Hampstead, designed by Mr. Arnold Mitchell, F.R.I.B.A., the Opening Ceremony being performed by His Majesty King Edward VII. on 26th July of that year. Since that time the relation between the College and the School has necessarily been less intimate, but it has remained a close one. Members of the College have served from time to time on the School Council. In the Session 1929–30 there were 34 former pupils of the School taking Courses at the College.

The University College School Science Research Medal, founded in 1881 by former pupils of the School, is awarded by the School Council, on the recommendation of the College Professorial Board, to the pupil who, within ten years of leaving School, has done original work of sufficient merit in a branch of Experimental Science while at the College.

The School Centenary Appeal Committee, of which the Right Hon. Sir Herbert Samuel, a former pupil, is President and Sir Stanley Leathes is Chairman, are asking for the sum of £50,000 as a means of improving and developing their work.

The School is handicapped by the lack of Scholarships. The College Committee, desiring to commemorate the Centenary of the School, have offered a Scholarship to be awarded once in every three years to a pupil of University College School, in the form of a remission of fees during his three-years' course. They take this opportunity of expressing to the School their congratulations on its great record of the past and of offering their cordial good wishes for its future.

Among the many other distinguished "Old Gowers," may be mentioned Joseph Chamberlain, Lord Leighton, Viscount Morley, the Marquess of Reading, and Sir W. Phené Neal, now Lord Mayor of London.

THE ATHLETIC GROUNDS.

Reference has been made in recent Reports to the heavy debts on the Students' Athletic Grounds. They were incurred owing to circumstances that were beyond the control of the Union Societies. In the case of the Men's Ground, the making of a new by-pass road cut off a large area, and involved the acquisition and relaying of new ground, to meet the cost of which the compensation received was

inadequate. Further, it became necessary to enlarge the pavilion accommodation, in order to meet the demands of increasing numbers, at a cost of £2,500. The result is a total debt that amounts, at the date of this Report, to £3,800.

The Women's Union Society have succeeded in reducing the debt on their ground by £830, of which £500 has been subscribed from their General Funds. The debt now stands at £1,070. A further expenditure will become inevitable in the near future, as the pavilion accommodation is not sufficient to meet the demands of the large membership of the Women's Athletic Union; it will also be necessary to lay down hard tennis courts during the present year.

The students are making vigorous efforts to diminish the heavy burden of these debts, which at present cripple their finances. A reference to some of the means adopted with this end in view is made on p. 86. The College Committee invite friends of the College to co-operate with them.

THE COLLEGE COMMITTEE.

Sir John Pakeman, who was appointed a member of the College Committee in July 1929, found it necessary, owing to his other numerous engagements, to resign his seat in June 1930.

The late Mr. G. H. Hurst succeeded Professor de Montmorency as one of the nominees of the Professorial Board for the year 1930–31; his death in October has left a vacancy on the Committee.

Dr. F. W. Goodbody has succeeded Dr. O. L. Brady as the Non-Professorial Representative of the Professorial Board.

THE PROFESSORIAL BOARD.

Emeritus Professor Ernest Gardner (Yates Lecturer in Archæology) has been appointed a member of the Professorial Board for the Session 1930–31.

Mr. H. F. Jolowicz (Reader in Roman Law) has been appointed a member under Statute 24 (4).

Mr. L. F. Gilbert (Lecturer in Chemistry) and Mr. F. Norman (Reader in German) have been elected members of the Board for the Session 1930–31, *vice* Dr. O. L. Brady and Mr. H. Terrey, under Statute 24 (5) and Regulation 29.

REPRESENTATIVES.

The following have been appointed, or re-appointed, representatives of the College on the various bodies, or at the Congresses, named:—

By the Senate:—

Professor Sir John Rose Bradford.	Ceremonies of Inauguration of the University Buildings presented to the University of Brussels by the C.R.B. Educational Foundation, and of the School of Medicine, presented by the Rockefeller Foundation, June 1930.

The Provost (Dr. Allen Mawer). Sir Andrew Taylor.	Architectural Education Committee.
Professor J. T. MacGregor-Morris.	Governing Body of King Edward VI. School, Chelmsford.
Professor C. J. Sisson.	Governing Body of Central Foundation Schools.
Mr. E. L. Tanner.	Central Council of Federated Superannuation System.
Professor W. W. Watts.	Governing Body of Sutton County School (*vice* Sir Ralph Forster, deceased).
Professor D. M. S. Watson.	Celebration of the Jubilee of the Foundation of the Victoria University of Manchester and the 80th anniversary of Owens College, May 1930.

The Senate have appointed Mr. F. L. Attenborough as the Representative of the University College Training Colleges Group Committee on the Training Colleges Delegacy for 1930–31.

By the College Committee:—

The Provost (Dr. Allen Mawer). Dr. F. W. Goodbody. Professor G. B. Jeffery.	Committee of Management, Ealing Hall Association, Ltd.
Professor J. C. Drummond. Colonel H. J. Harris. Mr. L. Solomon.	London Intercollegiate Scholarships Board.
Professor C. J. Sisson.	Journalism Committee.

DEATHS.

DR. J. BOURNE BENSON.

It is with profound regret that the College Committee record the death, on 14th November, 1930, of Dr. James Bourne Benson, Fellow of the College.

Dr. Benson was a pupil at University College School in 1858. He entered the College as a student in 1864–65. In 1867 he took his B.A., with Honours in Logic and Moral Philosophy; in 1871, his LL.B., with highest place in Honours and the title of "University Law Scholar"; in 1873, his LL.D. (Gold Medallist). He was President of the Debating Society, 1871–72, before the days of the Students' Union. In 1874 he was elected a Fellow.

For several years Dr. Benson acted as Honorary Auditor of the College Accounts. He was a member of the Council from 1887 to 1907, and of the College Committee from its institution in 1907 to 1922, holding the office of Vice-Chairman from 1919 to 1921, and Chairman (on the death of Lord Reay) from 1921 to 1922. He was Chairman of the Managing Sub-Committee from 1907 to 1914, during the period of transition that followed the incorporation of the

College in the University. He was a member of the Senate of the University from 1900 to 1906 and Chairman of the External Council from 1905 to 1906. He was a member of the Council of University College School from 1907 to 1914.

On the resignation of Dr. Benson from the College Committee, the following resolution was passed by the Committee (February 1922):—

> As this is the last occasion on which Dr. Benson will preside officially over the College Committee, they desire to record their appreciation of his long service ungrudgingly rendered to this Committee since its institution in 1907, and, before that, for twenty years, to the Council of University College. In so doing they are not thinking only, or indeed chiefly, of the mere lapse of time, but of his active participation in debate and of the value of his opinion generally, and especially on matters having a legal bearing. For these reasons, as well as on personal grounds, the Committee deeply regret that they are no longer to have the advantage of Dr. Benson's co-operation and advice.

At their meeting on 2nd December, 1930, the College Committee resolved:—

> That the University College Committee place on record their sense of the great loss that has been sustained by the College by the death of its distinguished *Alumnus,* Dr. James Bourne Benson.
>
> Since 1858, when he became a pupil of the School, passing into the College as a Student in 1864, Dr. Benson's affectionate interest and devoted services have continued steadily up to the close of his long life. At the end of his academic career, and so long as health and strength were granted to him, he was ever ready to place at the disposal of the College his legal knowledge, his powers of judgment, and his wise counsel; these were of inestimable value, more especially in the periods of difficulty that attended its growth. He served continuously on the Governing Body, first the Council and later the College Committee, from 1887 to 1922. The position that he held in the esteem of his colleagues was evidenced by his election as Chairman of the Managing Sub-Committee from 1907 to 1914, as Vice-Chairman of the College Committee from 1919 to 1921, and, on the death of Lord Reay in 1921, as Chairman. In accepting the latter office, he made it clear that it was a final act of service pending the appointment of another Chairman and before he relinquished his active connection with the College.
>
> His election as Fellow of the College in 1874 was a recognition of his distinction as a student.
>
> The severance of such a connection with its past history and development will cause a gap in the College that cannot be filled.
>
> The College Committee desire to express to Mrs. Benson and the members of the family their profound sympathy in their heavy bereavement.

The Quain Professor of Comparative Law, Professor J. E. G. de Montmorency, represented the College at the funeral at Hove on November 18th.

SIR RALPH C. FORSTER, Bart.

The Committee also record with deepest regret the death, on 17th April, 1930, of Sir Ralph C. Forster, Bart., a generous benefactor of the College. By the name of the Ralph Forster Organic Chemistry Laboratory, his great gifts, amounting in all to £34,500, to the Appeal Fund for the new Chemistry Laboratories, are commemorated. He further showed his interest in the College by a gift of £1,000 to the Centenary Fund, and by one of £500 to the Union Society's Fund in aid of the Men's Athletic Ground.

He was a member of the College Committee from 1916 to 1920.

The Committee also record with regret the death of the following persons connected with, or concerned in the work of, the College :—

Sir Henry Albert Alcazar, Member of Trinidad Executive Council since 1915 (Student in the Faculty of Laws 1878–82).

Sir Thomas Arnold, Professor of Arabic at the School of Oriental Studies (Professor of Arabic at the College 1904–17). [9th June, 1930.]

The Rt. Hon. Lord Ashton (Former Life-Governor). [27th May, 1930.]

Sir Otto Beit, Bart. (Benefactor). [6th December, 1930.]

Mr. Vernon Blake, Painter, Sculptor, and Writer (Student 1893–97). [19th April, 1930.]

Sir Cosmo Bonsor, Bart. (Former Life-Governor). [4th December, 1929.]

Dr. William Jethro Brown (Professor of Constitutional Law and History 1900–01). [May 1930.]

Dr. F. R. Blaxall, 32 years Medical Officer of the Local Government Board and Ministry of Health as Bacteriologist to Government Lymph Department (Student 1884–90). [21st June, 1930.]

Dr. H. L. Callendar (Quain Professor of Physics 1898–1902). [21st January, 1930.]

Dr. Sidney Coupland, 20 years Consulting Physician to Middlesex Hospital and Commissioner on Lunacy (Student in the Faculty of Medicine 1866–73).

Dr. Gilbert Dalziel, Wood Engraver (Student in the Slade School 1871–74).

Dr. J. V. Elsden (A member of the Department of Geology from 1914 to 1930; from 1921 onwards, as Lecturer). [2nd November, 1930.]

Dr. J. W. Evans, former Lecturer in Petrology at the Imperial College (Former Student). [16th November, 1930.]

Brig.-Gen. William Ewbank, Royal Engineers (Student 1879–83). [23rd January, 1930.]

Dr. A. R. Fee (Assistant in the Department of Physiology and Biochemistry). [23rd February, 1930.]

At a special meeting of the Faculty of Medical Sciences, the following resolution was adopted:—

> That the Faculty of Medical Sciences desires to place on record its high appreciation not only of the scientific attainments of Archibald R. Fee, B.A., Ph.D., but also of his great personal character and charm. Dr. Fee was a young man of outstanding intelligence and great enthusiasm, and a colleague of fine and indomitable spirit, whom all admired. His death deprives the department of Physiology and Biochemistry of one of its most promising and active workers and the Sciences of Physiology and Experimental Biology of a devoted servant.

The College was represented at the funeral by:—The Provost (Dr. Allen Mawer); the Jodrell Professor of Physiology (Prof. C. A. Lovatt Evans); the Dean of the Faculty of Medical Sciences (Prof. J. C. Drummond); the Sub-Dean of the Faculty of Medical Sciences (Dr. J. Kirk); and other members of the Faculty.

Mr. William Garrard Snowdon Gard (Former Governor; Former Student). [18th November, 1930.]

Lieut.-Col. F. W. Gee, Indian Medical Service (Student 1882–88).

Emeritus Professor Rabbi Sir Hermann Gollancz (Goldsmid Professor of Hebrew 1902–24; gave his library to the College). [15th October, 1930.]

The Provost represented the College at the Memorial Service; Dr. H. Hirschfield, Goldsmid Lecturer in Hebrew, at the Funeral.

Sir Israel Gollancz, Professor of English Language and Literature at King's College (Student 1882–83; Quain Student and Lecturer in the Department of English 1892-95). [23rd June, 1930.]

At their meeting on 24th June, 1930, the Professorial Board resolved:—

> That the Professorial Board desires to place on record its sense of the loss sustained by the death of Sir Israel Gollancz, an old *alumnus*, who for three years held the office of Quain Student in English in this College, and who has been for over forty years its faithful friend. Sir Israel's great services to learning are part of the history of English scholarship: his organising capacity and driving force enabled him to be the friend of scholarship in many ways, whilst his warm-hearted kindliness made him the friend of a long succession of scholars, from Skeat, Furnivall and their contemporaries down to those younger students whose services he succeeded in enlisting in many different fields.

The Rev. S. F. Hawkes, M.A., Member of the Order of St. John of Jerusalem in (recognition of the part he played in helping to rescue miners in a Yorkshire colliery fire) (Student 1892–94).

Mr. A. S. Hirst, Assistant Keeper at the British Museum (Student 1902–05). [April 1930.]

Mr. Gilbert H. Hurst (Reader in English Law since 1913; one of the representatives of the Professorial Board on the College Committee; Dean of the Faculty of Laws 1910–12, 1924–26). 7th October, 1930.]

The College was represented at the funeral by:—The Provost, Dr. Allen Mawer; the Dean of the Faculty of Laws, Mr. A. Sabonadière; the Vice-Dean, Professor J. E. G. de Montmorency; the Sub-Dean, Mr. H. F. Jolowicz; and Mr. A. S. Gilbert. (See also p. 64.)

Mr. George Percy Jacomb-Hood, M.V.O. (Slade School 1875–78). [11th December, 1929.]

Sir Edward Knobel (Former Life-Governor). [25th July, 1930.]

Mr. E. P. A. Law, Shakespearean Scholar; one of the Trustees of the Birthplace of Shakespeare, Stratford-on-Avon. (Student 1874.)

Mr. Malcolm Caird McAlpin, C.I.E., Commissioner of Chittagong (Student 1899–90). [4th March, 1930.]

Sir William Symington M'Cormick, Chairman of the University Grants Committee; Chairman of the Advisory Council of Scientific and Industrial Research; Member of the Royal Commission on University Teaching in London 1909. [24th March, 1930.]

The Rt. Hon. Lord Muir-Mackenzie (Former Life-Governor). [22nd May, 1930.]

Mr. E. R. Matthews (Chadwick Professor of Municipal Engineering 1914–21). [6th November, 1930.]

The Rt. Hon. Lord Melchett (Chairman of the Chemical Engineering Appeal Committee). [27th December, 1930.]

The College Committee, at their meeting on 6th January, 1931, resolved:—

> That the University College Committee desire to place on record the profound regret, and the sense of great loss, with which they have learned of the death of Lord Melchett. He had for many years proved himself a good friend and generous supporter of the College, both by his personal interest and through the Imperial Chemical Industries Ltd., of which he was Chairman. By accepting the Chairmanship of the Chemical Engineering Appeal Company, he rendered invaluable aid to those who were concerned with raising the necessary funds for the Ramsay Memorial Laboratory.
>
> The College Committee offer to Lady Melchett and the members of the family deep sympathy in their bereavement.

Professor F. G. Donnan and Professor W. E. Gibbs represented the College at the Memorial Service.

Professor Howard Murray, Professor of Classics, Dalhousie University, Halifax, Nova Scotia (Student 1881–86).

Dr. Richard M. Pearce, Director of the Medical Sciences Division of the Rockefeller Foundation of New York. [March 1930.]

A telegram was sent to the Rockefeller Foundation in the following erms: –

> University College, London, has heard with deep regret of the death of Dr. Richard M. Pearce, and desires to express its sympathy with the Rockefeller Foundation and Dr. Pearce's relatives in the great loss they have sustained. During the ten years in which we in this College have been intimately associated with Dr. Pearce, we have learnt to appreciate his wisdom and judgment, and the real friendship and tact he has shown in helping us to solve many of our difficulties and in promoting the advancement of medical research and teaching. The members of the College who have been most intimately associated with him have learnt to appreciate his sympathetic understanding of our problems and his untiring efforts to help us, and have developed a personal affection for him which has played a large part in the promotion of that helpful intercourse between the Rockefeller Foundation and this College, which has meant so much to us.

Lieut.-Col. W. G. Peterson, D.S.O., Lecturer in English at St. Andrews University (Student 1921–22). [3rd October, 1930.]

Mr. J. Plowright (Servant of the College since 1919; Caretaker of the Arts Annexes). [25th September, 1930.]

Major George Haven Putnam (Executive Chairman of the American Committee for the Establishment of a Chair of American History at the College). [27th February, 1930.]

Mr. E. W. Rassell (A College Carpenter; connected with the Works Department for 15 years). [10th March, 1930.]

Mr. C. P. Sanger (Member of the staff of the Department of Political Economy 1902–08). [21st February, 1930.]

Dame Mary Scharlieb, Pioneer in the Medical Education of Women (Student 1878–80). [22nd November, 1930.]

Mr. R. Elsey Smith (Student 1877–82; Assistant in Architecture 1892–1900; Joint Professor of Architecture 1913–19). [26th December, 1930.]

Mr. Matthew Dawson, Lecturer in Building Construction, represented the College at the funeral.

Mr. Herbert Snow, Senior Surgeon-Consultant of the Cancer Hospital (Former Student).

Miss Marguerite Bressey Turner (Student 1910–13; a valued member of the Administrative Staff 1923–30). [5th March, 1930.]

The Tutor to Women Students, the Assistant Secretary, and many colleagues represented the College at the funeral.

Sir Aston Webb, Past President of the Royal Academy of Arts. [August 1930.]

Sir Andrew Taylor represented the Bartlett School of Architecture at the funeral.

Mr. Lucien Wolf (A member of the Mocatta Library Committee as one of the representatives of the Jewish Historical Society, of which he was a founder and a former President). [23rd August, 1930.]

Professor William Wyse (Professor of Greek 1892–94). [29th November, 1929.] (See also p. 64.)

Sir George Young, Bart. (Former Governor; Vice-President of the College Senate 1878–80; President 1880–86). [4th July 1930.]

ARMISTICE DAY.

On Tuesday, 11th November, the Armistice Celebration was observed jointly with the Hospital and Medical School. A Wreath of Remembrance was placed around the names, in the South Cloisters, of those members of the College who gave their lives in the Great War. The assembly in the Great Hall included many Nurses of the Hospital and relatives of the fallen. The Commemoration Sentences were spoken by the Provost, the Last Post was sounded, and the Two Minutes' Silence followed. The hymn "O God, our Help in Ages Past" and the National Anthem were sung.

HONOURS AND APPOINTMENTS.

Past and Present Students and Other Persons connected with the College.

PROFESSOR SIR JOHN ROSE BRADFORD.

It gave the College Committee great pleasure to learn, at their meeting on 6th January, 1931, that H.M. The King had conferred the honour of a baronetcy on their Vice-Chairman, Sir John Rose Bradford, President of the Royal College of Physicians, Fellow and Emeritus Professor of the College. The following resolution was moved by the Chairman and unanimously adopted :—

> That the University College Committee desire to express to their Vice-Chairman, Emeritus Professor Sir John Rose Bradford, the profound gratification with which they have learnt that His Majesty The King has been pleased to recognize his great work in Medicine by conferring upon him the honour of a baronetcy.
>
> They take this as a fitting opportunity of placing on record their pride in his long and valued connection with the College, of which he was elected a Fellow in 1890. As professor at the College from 1895 to 1907, and later at University College Hospital Medical School, he has contributed to the reputation of both these institutions. The affectionate interest that he has always shown in the concerns of the College has been of incalculable value. As a member of the College Council, and later of the College Committee, of which he has been Vice-Chairman since 1922, he has been a source of strength. The College Committee earnestly hope that they may long continue to have the benefit of his wise judgment and experience.
>
> They offer to Sir John and Lady Bradford their warm congratulations, and wish them many years of health and strength in which to enjoy their new honour.

MR. P. WILSON STEER.

In the list of New Year Honours, 1931, Mr. P. Wilson Steer was admitted to the Order of Merit. His resignation from the office of Assistant Professor in the Slade School is recorded in another section of this Report (p. 67).

On receiving news of the great honour that H.M. The King had conferred upon him, the College Committee resolved (6th January, 1931) :—

> That the University College Committee desire to offer to Mr. P. Wilson Steer their sincere congratulations on the rare honour that His Majesty the King has been pleased to show him by bestowing upon him the Order of Merit. They take pride in remembering his long and distinguished connection with the Slade School, first as Assistant and since 1921 as Assistant Professor, extending from 1899 till 1930. They are not unmindful of the fact that he continued his work there for the love

of it, long after the recognized position that he had attained in the world of Art might have provided him with an excuse for giving it up, had he desired to do so. His great services to the School have added lustre to the history of the College and will not be forgotten. The Committee hope that he will have health to contribute to the Art of the country for many more years to come.

DR. G. F. HILL.

The College Committee have also learnt with the greatest pleasure that Dr. George Francis Hill, formerly Keeper of the Department of Coins and Medals at the British Museum, has been appointed by H.M. The King to succeed Sir Frederic Kenyon as Director and Principal Librarian. Dr. Hill was elected a Fellow of the College in 1894. The connection between the College and his family has always been a close one, his brother, the late Dr. M. J. M. Hill, being a Fellow and Astor Professor of Pure Mathematics from 1884 to 1924. His new appointment has been a source of great gratification to his many friends at the College.

The following are among the further Honours and Appointments of which information has been received:—

(i.) Honours and Special Awards.

King's Birthday Honours, 1930:—

Gaskell, Surgeon Vice-Admiral Arthur (Fellow)	K.C.B.

GRANTS AND LOANS TO STUDENTS.

During the Session 1929–30 the following Grants were made :—

	£	s.	d.
Loans from the Madeleine Cole Loan Fund..	20	0	0
„ „ M. J. M. Hill Loan Fund ..	30	0	0
„ „ W. W. Rouse Ball Loan Fund	80	0	0
„ „ College Loan Fund	217	0	0
Bursaries (including War Memorial Bursary, £40)	432	0	0*
Exhibition Bursaries	321	0	0
Special Fee Remission	18	18	0
	£1118	18	0

At the time when these Grants were made, the amount available was not sufficient to meet all the applications that were received.

The list of new donations to the Fund is given in Appendix III.

Bursaries are gifts towards maintenance; Exhibition Bursaries are gifts towards fees. These awards are generally made to Entrance Scholars whose circumstances are such as to make supplements to the value of the Scholarships essential.

Loans are made on the following terms :—

(*a*) Loans during a Student's career in the College shall not carry interest.

(*b*) After the end of a Student's career in the College the loans shall carry interest at the rate of 1% above Bank Rate, with a maximum of 5%, except in respect of the W. W. Rouse Ball Loan Fund, which is free of interest.

(*c*) Loans shall be repaid within three years from the completion of a Student's College career, unless, on the special application of the Student concerned, an extension of time is granted.

(*d*) Students to whom loans are granted will sign a document accepting these conditions, and in the cases of Students under age their parents or guardians shall countersign the same undertaking.

It has been possible, up to the issue of this Report, to make the following Grants for the Session 1930-31 :—

	£	s.	d.
Loans	256	8	0
Bursaries	322	0	0**
Exhibition Bursaries	295	10	0
Special Fee Remission.....		—	
	£873	18	0

* Including Morris Bursary of £20 and £140 Bursary given by special donation from Mrs. Wharrie.

** Including Morris Bursary of £12, War Memorial Bursary of £40, and Bursaries to the amount of £40 given by special donation from Mrs. Wharrie.

Loans were repaid during the Session 1929–30 as follows :—

To the College Loan Fund	£146
„ M. J. M. Hill Loan Fund	95
„ Madeleine Cole Loan Fund	50

The fund is administered by a Committee consisting of the Provost, the Deans, the Tutor to Women Students, and the Sub-Deans.

This Committee deals with each case on its merits and after careful investigation.

The fund is of great value, and enables many Students to obtain the training they desire and deserve. At the same time it is not at present large enough to enable the Committee to meet the needs of all deserving cases.

Members of the College are specially invited to support it.

THE COLLEGE SITE AND BUILDINGS.

Reference was made in the last Report to the generous offer of Sir Joseph Duveen, Bt., to defray the cost of equipping the room formerly known as the South Class Room as an *Exhibition Room* for the display of the Art treasures of the College. The decoration, equipment, and furniture were designed by Professor Richardson, and the work was carried out by Messrs. Dove before the close of last session. The method of framing and hanging that has been adopted provides for the quick interchange of pictures, so that those on exhibition may be varied from time to time, the selection being entrusted to the direction of the Slade Sub-Committee. Those not on view are stored in solander cases in a fireproof safe, and are readily available on application. There is an effective scheme of lighting concealed behind screens and above the oak-encased pillars. A Select List and Outline Inventory of the Prints and Drawings has been compiled by Dr. A. M. Hind, the Assistant Keeper of Prints and Drawings at the British Museum, to whom the College is so much indebted for his invaluable help in examining those prints and drawings, and in supervising the mounting and cleaning of the more valuable ones.

The room was formally opened by the Vice-Chairman of the College Committee, Professor Sir John Rose Bradford, Bt., on 30th September, Sir Joseph and Lady Duveen being present. Friends of the College who have not already visited it are cordially invited to do so. It is open daily from 1 to 4 (Saturdays 10 to 1), or at other times on application.

The possession of such a room is a great addition to the amenities of the College, and all who enjoy the privilege of using it are indebted to Professor Henry Tonks, to whom the idea was first due, and to Sir Joseph Duveen for so generously providing the means of giving effect to it.

The work of the *Ramsay Memorial Laboratory of Chemical Engineering* has been carried on in temporary quarters since its foundation in 1923. The site of Nos. 21 and 23 Gordon Street, which is in close proximity to the Chemical Laboratories, was acquired and the building known as No. 23 Gordon Street was adapted as a temporary Ramsay Laboratory, pending the provision of necessary funds to erect a permanent building. The result of the work of the

Special Committee under the Chairmanship of the late Lord Melchett is referred to in the report of the Executive Committee of the Centenary Appeal Fund (p. 117). The College Committee felt that it was desirable, although the total sum of £50,000 required for building and equipment has not yet been raised, to proceed with the erection of the building, as far as present funds permit. Accordingly, plans were approved and tenders obtained last session. As a means of economy, and having regard to the satisfactory condition of the structure of the existing building of No. 23 Gordon Street, an agreement was entered into with the Bedford Estate Office for the retention of the structure as part of the new building. Messrs. Leslie & Co. have been entrusted with the work, which began in the Long Vacation. It is hoped that it will be finished in time for the equipment to be installed during the Long Vacation of 1931, in readiness for the opening of the Session 1931–32.

The *Faculty of Engineering* has been provided with more adequate Senior Drawing Office accommodation by the conversion of the former Third Year Drawing Office into one large room, which includes the corridor and is provided with ample top and side lights. It is available for the use of all the departments of the Faculty (Civil, Mechanical, Municipal, and Electrical). The cost has been met from the sum subscribed to the Centenary Appeal Fund for Engineering Buildings and Equipment.

Structural and Electrical work was carried out in the *Gymnasium* during the Long Vacation, with a view to providing against the risk of fire during dramatic performances, and to improving the stage lighting; an additional door has been put in the West wall.

The *Professors' Smoking Room and the Central Committee Room* have been redecorated and a new scheme of lighting has been installed. The Staff Common Rooms Committee is co-operating in the matter.

The *Refectory* has been provided with more adequate and convenient wine-cellar accomodation.

The acquisition from the Bedford Estate Office of a twenty-years' lease of Nos. 88 and 88 A Gower Street was mentioned in the last Report. The Universities Bureau of the British Empire have become the tenants of the College for No. 88 A, which they have reconstructed and extended.

BENEFACTIONS AND DONATIONS.

(Other than Centenary Fund, see p. 21.)

The College Committee make grateful acknowledgment of the following gifts:—

The list on p. 111 includes the sum subscribed annually through His Excellency the Italian Ambassador for the Department of Italian (£300); the grant from the Rhodes Trustees towards the Chair of Constitutional Law (£200); the grant from the Cassel Trustees for Language Teaching to Commerce Students (£210); the grant from the Incorporated Institute of British Decorators for the Division of Decoration (£350); the grant from the Chadwick Trustees for the Department of Municipal Engineering and Hygiene (£200); and donations towards the Students' Loan and Bursary Fund, including £100 from Mrs. M. Wharrie.

The Drapers' Company have renewed, for the Sessions 1929–30 and 1930–31, their grant of £500 per annum for the Biometric Laboratory in the Department of Applied Statistics and Eugenics.

The University Grants Committee have made a non-recurrent grant of £1,500 for the purchase of books and periodicals to fill gaps in the General Library and to overtake arrears in binding.

Under the will of the late Professor William Wyse (Chair of Greek 1892–94), £1,000 has been received for general purposes. It was left subject to the life interest of the testator's sister, Miss A. E. Wyse, who has generously relinquished her claim and has forwarded a cheque for the amount.

The late Mr. Gilbert H. Hurst (Reader in English Law from 1913 until the time of his death in October 1930) left to the College the sum of £250, free of duty, to be called the "Hurst Bequest" and to be applied towards the study of English Law. A Committee is considering the way in which it is to be applied.

Under the will of the late Miss Alice Gruner, £250 Stock has been received "as an appreciation of the free Public Lectures given at [the] College." The Committee have decided that it shall be used in connection with the arrangement of Public Lectures.

A valuable gift for the Faculty of Medical Sciences has been received from Lady Thane, widow of the late Professor Sir George Thane, in the following terms:—

> "In proud and affectionate memory of the great work accomplished by my husband, Sir George Dancer Thane, during the 42 years that he occupied the Chair of Anatomy at University College, London, I have great pleasure in presenting to the College for the Faculty of Medical Sciences Library all the scientific annotations, papers, and extracts, worked out, collected and compiled by him, during years of steadfast and devoted labour, as well as all the scientific books and pamphlets contained in his library at the time of his death, feeling sure that in no better way, or one more pleasing to him, can I serve the College he loved so well, or the students training there, to every one of whom—if an earnest worker—he would, I am sure, even now, as far possible wish to hold out a helping hand."

Through the good offices of Professor J. P. Hill, Dr. Kathleen F. Kitchin has presented eleven volumes of notes and drawings and four cases of dissection notes made by Sir George Thane, that had come into her possession.

Through the kind offices of Mr. A. Rugg Gunn, F.R.C.S., Mr. R. F. Rugg, of the firm of Messrs. Morgan, Price, Morley & Rugg, acting as Trustee for the Estate of the late Colonel Robinson, R.E., has presented to the Department of Anatomy and Embryology a very valuable collection of microscopical apparatus comprising microscopes, objectives, photomicrographic cameras and lenses, illuminating apparatus, and other laboratory equipment, which is a great acquisition to the research and teaching work of the Department.

For the School of Architecture the following gifts have been received:—

The proprietors of *Building* have established an annual prize of 4 guineas for an Architectural Competition; the directors of the

Architectural Press, Ltd., have renewed, until further notice, their contribution of 5 guineas per annum for the '*Architects' Journal* Prize'; Mr. A. C. Bossom and Mr. A. J. Davis have offered to provide, in the first instance for five years, two silver medals to be awarded as first and second prizes for work in the Atelier; the Empire Marketing Board have given a set of small samples of fifty principal Empire woods, prepared by the Forest Contracts Research Laboratory, Princes Risborough.

The Department of Archæology has received the following gifts:—

From the Burlington Fine Arts Club, a small collection of South Italian Greek vases; from the Ashmolean Museum at Oxford, some sets of important Minoan sherds; from Miss J. du Plat Taylor (through the courtesy of the Committee and Curator of the Government of Cyprus Museum, Nicosia), a collection of Cypriote sherds of all periods; from Mrs. Shannon, photographs acquired during her travels in Europe. The Yates Professor, Professor Ashmole, has given duplicates from his own collection of original photographs.

For the Department of Political Economy, a gift of £25 has been received from an anonymous donor, through the Senior Lecturer, Mr. N. F. Hall, for the purchase of books for the Library.

Professor Henry Tonks has given a water-colour drawing by James Wilkie, which was recently exhibited at the Imperial Gallery of Art, to be added to the collection in the Exhibition Room.

Sir Gregory Foster, Bt., has presented a gyroscope.

The following further gifts have been received:—

For the Mocatta Library: from the late Emeritus Professor Rabbi Sir Hermann Gollancz, a portrait of himself; from Mr. Gustave Tuck, a portrait of himself; from Mr. F. I. Spielmann, the loan of a Sedan Chair used by Sir Moses Montefiore, believed to be the last of these chairs used in England, and personal relics of Sir Moses, including a dressing-gown, waistcoats, gloves, letters, pass-books, etc. For the School of Librarianship: from the Library Bureau, card catalogues, vertical files, and other Library apparatus. For the Department of Botany: from Professor A. G. Tansley, a portrait of Emeritus Professor F. W. Oliver. For the Anthropological Collection: from the Hon. Vera Saunders, two native head-dresses from the Sudan.

Donations to the Library are recorded on pp. 131–136.

THE ACADEMIC STAFF.

Appointments and Changes.

The increase in the grant from the Court of the University for the Quinquennium 1930–35 enabled the College Committee to give full consideration to the problem of the salaries of the professorial and non-professorial staff. A Salary Scheme for the Quinquennium 1930–35 has been drawn up, which will improve substantially the position of the professorial and non-professorial staff alike. So far as non-professorial salaries are concerned, the College Committee have decided that two steps must be taken in order that a satisfactory Salary Scheme may come into being:—(i.) That the grades and titles should be more clearly defined in regard to their scope and significance, and more clearly differentiated in the matter of salary;

(ii.) That there should be a College establishment by which the financial effect of promotions and appointments can be estimated and controlled. The College Committee have defined anew the scope and significance of the various titles, and have revised the methods of appointment and promotion thereto. Detailed proposals, giving effect to the scheme, are still under consideration.

The following is a summary of the changes in the Academic Staff that have taken place in the twelve months under review:—

Changes of title have been adopted as follows (the former status is given in brackets):

Faculty of Arts.—*Architecture*: Mr. L. S. Stanley (Assistant) Lecturer and Tutor to Architecture Students; *Economic Geography*: Mr. R. O. Buchanan and Mr. R. E. Dickinson (Assistants) Lecturers; *English*: Miss E. C. Batho (Lecturer) Senior Lecturer; *French*: Miss B. J. Schlumberger and Miss D. Starke (Senior Assistants) Lecturers; Mr. L. W. Tancock (Assistant) Lecturer; *History*: Mr. M. Postan (Assistant) Lecturer, Mr. C. H. Williams (Lecturer) Senior Lecturer; *Latin and Greek*: Mr. J. F. Lockwood and Miss E. J. Vaughan (Assistants) Lecturers; *Mathematics*: Mr. L. S. Bosanquet (Assistant) Lecturer.

Faculty of Science.—*Chemistry*: C. R. Bailey (Lecturer) Senior Lecturer, Mr. C. F. Goodeve (Assistant) Lecturer; *Geology*: Miss E. Goodyear (Senior Assistant) Hon. Lecturer; *History and Method of Science*: Dr. D. McKie (Assistant) Lecturer; *Physics*: Mr. R. C. Brown (Assistant) Lecturer; *Zoology*: Mr. G. P. Wells (Assistant) Senior Assistant.

Faculty of Engineering.—*Electrical Engineering*: Dr. H. E. M. Barlow (Lecturer) Senior Lecturer.

Faculty of Medical Sciences.—*Anatomy and Embryology*: Dr. J. Kirk (Demonstrator) Senior Demonstrator; *Physiology and Biochemistry*: Dr. H. P. Gilding (Lecturer) Senior Lecturer, Dr. G. F. Marrian (Hon. Research Assistant) Lecturer, Dr. W. H. Newton (Sharpey Scholar and Assistant) Lecturer.

The following new appointments and changes have been made:—

Faculty of Arts.

Reference was made in the last Report to the impending resignation of Professor Henry Tonks from the Slade Chair of Fine Art at the end of last Session. At their meeting on 1st July, 1930, the College Committee associated themselves with the following resolution of the Professorial Board:—

> That the Professorial Board desire to record their sense of the great loss that the College will sustain by the retirement of Professor Henry Tonks from the Slade Chair of Fine Art at the end of the current session.
>
> His connection with the Slade School goes back to 1893, when he came as Assistant to Professor Frederick Brown. He subsequently received the title of Assistant Professor, and in 1917 succeeded Professor Brown as Slade Professor.
>
> The period of his Professorship has been one of great activity and progress in the School. This has been in a large measure

due to the manner in which he has himself upheld its fame and traditions in the world of art, and to the contagious enthusiasm that he has brought to his work. To him the welfare of his students has always been a matter of close personal concern, and he has done much in enlarging the scope of the teaching with a view to providing further opportunites for the use of their artistic gifts. The work of the School in Decorative Painting is a notable example of such developments.

To Professor Tonks was mainly due the conception of an Exhibition Room for the care and display of the Art treasures of the College, and it was through him that Sir Joseph Duveen became interested in the scheme and generously offered to provide the means for putting it into effect.

The Professorial Board extend to Professor Tonks their thanks for the great work that he has done for the College. They wish him health and strength for the full enjoyment of the greater leisure which will now be his.

Mr. C. Koe Child, who had been so closely associated with Professor Tonks during his professorship, as well as with his predecessor, Professor Frederick Brown, also resigned at the end of the Session, being compelled to take this step owing to ill-health. The College Committee and the Professorial Board recorded their appreciation of the long and valuable services that he had rendered to the Slade School during a period of some thirty-seven years, and their earnest hope that he will be granted renewed health and strength to enjoy the leisure that he has so richly earned.

A further change was made in the Slade School on the resignation of the Assistant Professor, Mr. P. Wilson Steer, to whom a fuller reference is made on p. 33. Mr. A. T. Porter, who has been for many years Lecturer in Perspective, has also resigned.

Mr. Randolph Schwabe, a former student of the Slade School, has succeeded Professor Tonks in the Chair; Mr. Walter Bayes has been appointed Lecturer in Perspective and Mr. Allan Gwynne Jones Assistant.

In the Bartlett School of Architecture, Mr. Arthur Stratton, Reader in Architecture, has resigned on account of ill-health. During the seventeen years that he has been at the College, following on nine years' service at King's College prior to the amalgamation of the two Schools of Architecture, Mr. Stratton has been a valued member of the Staff, both in his capacity as University Reader and as Tutor to the Architecture Students. The Committee regret that he has found himself unable to continue his arduous duties at the College, and hope that, with greater leisure, his health will be fully restored. Mr. L. Stuart Stanley, Lecturer, has succeeded him as Tutor to Architecture Students.

The Senate have appointed Mr. Hugh Hale Bellot, M.A.(Oxford), to the Commonwealth Fund Chair of American History, the establishment of which was recorded in the last Report. Mr. Bellot was a member of the History Staff of the College during the period 1921–27, when he left to become Reader in Modern History at the University of Manchester. By editing the Centenary History of the College, he has done a lasting service. He took up the duties of the Chair at the opening of the current Session, but was granted leave-of-absence

for the First Term to enable him to visit and lecture in American Schools of History.

In the Department of English there have been several changes. Mr. J. H. G. Grattan, Reader in English and Germanic Philology, a valued member of the Department of long standing, resigned at the end of last Session to become Baines Professor of English Language and Philology in the University of Liverpool in succession to Dr. Allen Mawer, now Provost of the College. Dr. F. S. Boas had kindly come to the assistance of the Department during the Session 1929-30, pending the appointment of a Senior Lecturer in succession to Mr. O. Doughty, now Professor in the University of Cape Town. The College is greatly indebted to Dr. Boas for the valuable help that he has thus given. Mr. J. R. Sutherland, M.A., formerly Lecturer in English Literature in the University of Glasgow, and Mr. A. H. Smith, Ph.D., formerly Lecturer in English at the University of Uppsala, have been appointed Senior Lecturer and Lecturer, respectively. Mr. H. Jenkins, B.A., has succeeded Mr. W. A. G. Doyle Davidson as Quain Student in English, the latter having accepted the post of Lector in English Language at the Catholic University of Nijmegen, Holland.

In the Department of German, Mr. F. Norman, formerly Lecturer, has been appointed by the Senate to a Readership held jointly at University and King's Colleges. Mr. August Closs, Ph.D., has come from Graz as an Assistant.

Dr. Camillo Pellizzi, formerly Senior Lecturer in Italian, has been granted the title of Reader.

In the Department of History, Mr. W. Adams, who was in the United States last Session, has returned as an Assistant. Miss Olwen Kendall, who acted as deputy to Mr. Norman Baynes last Session, and Mr. M. A. Thomson, B.A., have also been appointed Assistants. Mr. D. W. Brogan and Miss I. Thornley, Lecturers, and Mr. H. St. L. B. Moss, Assistant in Ancient History, have resigned.

Miss Margaret Shackleton, Lecturer in Geography, resigned at the end of last Session in view of her approaching marriage; Mr. G. Tatham, B.A., has been appointed an Assistant in the Department.

Mr. E. M. F. Durbin has resigned the Ricardo Scholarship in the Department of Political Economy to take up an appointment at the London School of Economics. Mr. J. Inman, B.A., has succeeded him.

Miss F. M. Wood, having been appointed Principal of Southlands Training College, has resigned her appointment as Lecturer in the Department of Mathematics as from the end of the Second Term of this Session. The Committee congratulate her on this important appointment, but regret that it involves the severance of her connection with the teaching and life of the College, to which she has made such a valuable contribution.

The following further new appointments have been made:—

	Department.	*Status.*
Garstang, Mr. T. E. ..	Applied Mathematics.	Assistant.
Rigby, Miss C. M.	Mathematics.	Assistant.
Roberts-Harry, Mr. E.	French.	Assistant.
Tully, Miss E. B.	Mathematics.	Assistant.

The College Committee and Professorial Board have received with regret the intimation of the retirement at the close of the current Session of Professor R. Priebsch, who has occupied the Chair of German since 1898. Steps are now being taken with a view to appointing his successor.

Faculty of Laws.

A reference to the death of Mr. G. H. Hurst, Reader in English Law, is made on p. 30.

Mr. C. J. Hamson, B.A., has been appointed an additional Assistant for Tutorial Work in the current Session.

Faculty of Science.

Professor C. K. Ingold, D.Sc. (London), formerly Professor of Organic Chemistry in the University of Leeds, was appointed to the Chair of Chemistry following on the resignation of Professor Robert Robinson.

Dr. J. V. Elsden had resigned the post of Lecturer in the Department of Geology at the end of last Session. His lamented death, following so closely on his resignation, is recorded elsewhere (see p. 28).

Dr. T. A. Stephenson, Senior Lecturer in the Department of Zoology, resigned at the end of the First Term of the current Session, having been appointed to the Chair of Zoology in the University of Cape Town.

In the Department of Physics, Mr. W. W. Barkas and Mr. A. M. Cassie, Lecturers, have resigned to take up other appointments. Mr. F. C. Chalklin, Ph.D., has been appointed to one of the vacancies thus created.

Mr. N. K. Adam, M.A., Sc.D., Mr. H. G. de Laszlo, M.A., Ph.D., Mr. C. Robinson, Ph.D., and Mr. E. J. B. Willey, M.Sc., Ph.D., have been appointed Honorary Research Associates in the Department of Chemistry.

The following further new appointments have been made:—

	Department.	*Status.*
Irvine, Miss Elvira	Applied Statistics and Eugenics.	Draughtsman.
MacGregor, Mr. M.....	Geology.	Demonstrator.
Steen, Miss Margaret C.	Zoology.	Assistant.
Stoessiger, Miss Brenda.	Applied Statistics and Eugenics.	Assistant.

The College Committee and Professorial Board have received with regret the intimation of the retirement at the close of the current Session of Professor E. J. Garwood, who has occupied the Chair of Geology since 1901, and Professor C. Spearman, who has been Head of the Department of Psychology since 1911. Steps are being taken to fill the vacancies thus created.

Dr. D. McKie (Lecturer in the History and Method of Science) has been appointed a Member of the Faculty.

Faculty of Engineering.

Mr. A. W. T. Boyd, B.Sc., has been appointed a Demonstrator in the Department of Electrical Engineering.

Dr. F. C. Chalklin, Lecturer in Physics, has been appointed a Member of the Faculty.

Faculty of Medical Sciences.

In the Department of Physiology and Biochemistry, Dr. R. J. Brocklehurst, Senior Lecturer, resigned to take up the appointment of Professor of Physiology in the University of Bristol, and Mr. R. K. Cannan, Lecturer in Biochemistry, to become Professor of Chemistry at New York University and Bellevue Hospital Medical College, both at the end of last Session. Dr. W. H. Newton, formerly Sharpey Scholar, has been appointed Lecturer, and Mr. F. G. Young has succeeded him as Sharpey Scholar. Miss W. J. Wadge has been appointed an Assistant in the Department; Mr. R. A. Kekwick and Miss L. M. Kerly, Demonstrators. Mr. P. Eggleton, Honorary Assistant, and Mrs. Grace Palmer Eggleton, Assistant, also resigned at the end of last Session, in view of the former's appointment as Lecturer in Biochemistry in the University of Edinburgh.

Mr. W. S. Duke Elder, M.A., D.Sc., M.D., Ph.D., has been appointed an Honorary Research Associate in the Department of Physiology and Biochemistry.

Dr. F. Davies and Mr. E. P. Stibbe resigned their Senior Demonstratorships in the Department of Anatomy and Embryology at the end of last Session, the former to become University Reader in Anatomy at King's College, the latter Senior Assistant in Anatomy at the London Hospital Medical College. Mr. F. Goldby, B.A., M.B., has been appointed Senior Demonstrator. As he was unable to take up his duties until the beginning of 1931, Mr. C. P. Bryan was appointed a Demonstrator for the first term of the Session. Mr. R. W. Haines, formerly Honorary Demonstrator, has been appointed a Demonstrator. Mr. J. C. R. Hindenach was appointed a Demonstrator, but resigned at the end of the First Term; Miss Audrey Russell has taken his place. Mr. Y. H. Aasar has been appointed an Honorary Demonstrator.

Professor T. Thomson Flynn, D.Sc., has been appointed an Honorary Research Associate in the Department of Anatomy and Embryology.

Mr. J. D. Procter, Assistant in Pharmacology, resigned at the end of last Session; he has been succeeded by Dr. F. H. Smirk.

Professor E. J. Salisbury, Dr. H. P. Gilding, Senior Lecturer, and Dr. G. F. Marrian, Lecturer, in the Department of Physiology and Biochemistry, have been appointed Members of the Faculty.

ADMINISTRATION.

Mr. H. Wesley Voysey was obliged to resign the office of Superintendent of Buildings in May 1930 on account of ill-health. In accepting his resignation, the Committee expressed their great regret at losing one who had rendered such valuable service to the College, and their appreciation of this service, also their cordial good wishes for his renewed health and vigour in the years of greater

leisure that may lie before him. Mr. Albert G. Wright, who was for twenty-seven years a member of the Staff of the Civil Engineer-in-Chief at the Admiralty, has succeeded Mr. Voysey.

Mr. B. N. Parker resigned the offices of Private Secretary to the Provost and Alumnus Secretary, with which he had combined the Honorary Secretaryship of the Old Students' Association, in order to become Bursar of Kinmel School, Abergele, North Wales. By a redistribution of duties among other members of the staff, it has been found possible to carry on the work without a new appointment Miss E. Muriel Jukes, B.A., a former student of the College, has been granted the title of Alumnus Secretary, and has taken over that part of Mr. Parker's work, relinquishing her previous appointment as Private Secretary to the Provost. Mr. O. V. Lawley, Superintendent of Records, has assumed the additional duties of Private Secretary to the Provost.

THE WORK OF THE FACULTIES.

The Report presented by the Provost at the Assembly of Faculties last July deals with the outstanding events of the Session 1929–30. This Report, together with the address delivered by Sir Henry Hadow, then Vice-Chancellor of the University of Sheffield, who received the Scholars, Exhibitioners, Medallists, and Prizemen, is printed in the Calendar for the current Session. The admission of the new Honorary Fellows and Fellows by the Chairman of the College Committee, the Viscount Chelmsford, also took place on that occasion.

A list of the Original Publications by members of the Staff and Research Students for the year 1929–30 will also be found in the current Calendar (pp. 349–386). It is a sufficient indication of the active research work that is going on.

A list of the Public Lectures arranged since the issue of the last Report is given below. The attendances are recorded on p. 20. The College Committee desire to take this opportunity of expressing their appreciation of the services of the several lecturers in this important public side of the work.

Mr. E. K. Waterhouse, of the National Gallery.	"The Family of Bellini" (Three lectures).

The following is a brief summary of matters to be noted in connection with the work of the past year:—

FACULTY OF ARTS.

The Bartlett School of Architecture.

The Report of the Professors of the Bartlett School of Architecture, including the Division of Decoration, is appended hereto (p. 127). It continues the satisfactory record of successes that have been gained by Students of the School in open competition for important prizes, which form a gratifying testimony to the teaching of Professor Richardson and those who are associated with him in the work of the School. By the resignation of Mr. Arthur Stratton, Reader and Tutor, the School has lost a good friend, who never spared himself in its interests, and who for so many years rendered invaluable help both to his colleagues and to the students. The numbers working in the Atelier for post-graduate and post-diploma study of Advanced Design continue to be too great for the temporary accommodation provided in Malet Street. As an interim measure, some of them are accommodated in the Bartlett School. It is hoped that the arrangement that has been entered into with Messrs. H. K. Lewis, whereby adequate accommodation will be available for the Atelier in part of their new building, which is adjacent to the School of Architecture, will come into operation at the opening of next Session, when the rebuilding of Messrs. Lewis's corner of Gower Street and Little Gower Place has been completed.

There are 111 day students in the Bartlett School this Session, of whom 42 are working for the degree and 45 for the Diploma or Certificate. Fifty-six students are at work. There are 17 taking the Certificate Course in the Division of Decoration, which also supplies valuable teaching for the other students of the School of Architecture, as well as for students of the Slade School.

The Slade School.

A reference to the many changes in the teaching staff of the Slade School has been made elsewhere (pp. 66, 67). Mrs. Green has provided valuable assistance to the new Professor and the members of his staff in helping to link on the new régime to the work of the past. In the final Report presented by Professor Henry Tonks as Slade Professor at the close of the Session 1929–30, he pays a warm tribute to the members of his staff, and states that "at no time has there been . . . . a greater number of gifted students so intent on their work." The work in Decorative Design done under Mr. Ormrod has continued to

receive encouragement. Some of the present and recent students have been entrusted with a series of decorations for a refreshment room at Lord's Cricket Ground, the result giving great satisfaction. The Course in Stage Decoration that was instituted as an experimental measure under Mr. V. Polunin, has proved so successful that it has been continued. A new departure has been made this Session by the arrangement of a course of lectures, in co-operation with the Departments of Philosophy and Psychology, on "Emotional Factors in the Religions and Art," which students of the Slade School who have paid a full composition fee are entitled to attend without further fee. The course has created considerable interest among the students of the School.

The gathering together and cataloguing of the valuable works of art belonging to the College that has now been done in connection with the new Exhibition Room provides a further means of inspiration and study.

History of Art.

The Sub-Department of the History of Art under the Durning-Lawrence Professor, Dr. Tancred Borenius, continues to form a valuable supplement to the teaching of the Slade School. The research work in English Mediæval Art has been carried further, and the following *University College, London, Monographs on English Mediæval Art* have been issued:—"St. Christopher in English Mediæval Wall-painting," by Mr. H. C. Whaite; "English Mediæval Enamels," by Miss Mary Chamot; and "The Inter-relation of the Fine Arts in England in the Early Middle Ages," by Miss M. Dickens Whinney. The preparation of further monographs is in progress.

Professor Borenius was granted leave of absence to deliver a short course of lectures on "English Mediæval Art" at Göttingen in the first term of the current Session.

The School of Librarianship

The Director's Report on the School of Librarianship for the Session 1929–30 will be found on p. 120, and shows a further long list of appointments gained by students who have qualified. The number of students enrolled for the current Session is 154, as compared with 147 last Session, of whom 83 are working for the University Diploma. An Alternative Course for the Diploma, to meet the needs of graduates in Faculties other than Arts who wish to train for work in Special (*e. g.*, Scientific, Technical, and Commercial) Libraries, has been approved by the Senate, and arrangements will be made for teaching in the alternative Subjects (including the History of Science and Special Library Services) as from the opening of next Session. The demand for training in this, the only University School of Librarianship in the country, continues to show that it meets a definite need that cannot otherwise be supplied. The means of placing it on a permanent and satisfactory financial basis have yet to be found, but the Committee are confident that, having regard to the success that has attended its work since its foundation in 1919, they will, in due course, be forthcoming. The School is at present being assisted by a Special Grant from University General Funds, as the period during which grants were received from the Carnegie United Kingdom Trust came to an end in 1929.

Archæology.

In the Department of Archæology steps have been taken to enlarge the collection of materials for teaching. The gifts that have been received are recorded on p. 65. The collection of slides has been

augmented. In addition to the regular courses of lectures, Professor E. A. Gardner, the Yates Lecturer, delivered a course on "Ancient Greek Sites" last Session, and a course on "Greek Myths and Their Treatment in Art" in the First Term of this Session. The Advanced Students had the advantage of attending a seminar on Ancient Coinage by Mr. Mattingly at the British Museum.

The courses in British Archæology have been supplemented by active field-work under the Lecturer, Dr. R. E. Mortimer Wheeler. The excavations carried out in the summer of 1929 on a prehistoric and Saxon site at Dunstable in Bedfordshire have been followed by work on prehistoric and Roman sites at Colchester and St. Albans. The latter has created considerable public interest, and many valuable finds have been unearthed in the ancient Roman city of Verulamium.

Egyptology.

The eighty-foot pottery case and some of the other cases in the Egyptology Museum have been emptied and cleaned, the objects being overhauled and re-arranged. As a result, this part of the Collection can be more readily studied. Mr. Reginald Engelbach, Curator of the Cairo Museum, a former student of the Department, gave a public lecture at the College last term. The Annual Exhibition of the results of the excavations of the British School of Archæology in Egypt at Tell Fara and other sites in Southern Palestine was held at the College last July, and attracted many interested in the archæology of the Near East. Field-work is being continued this season at Tell Ajjul. It is hoped that the result will be to carry knowledge of Egypt in Syria back to a period long preceding that of which information is at present available. Miss Murray and Dr. Edith Guest conducted excavations in Minorca last summer for the Ethnological Museum of Cambridge, with the assistance of Miss Campion and Mr. Balakrishnan Nayar, students of the Department. The site was proved to have been continuously used from the Neolithic Age down to the First Century B.C. This is the first scientific excavation to be made in the island, and a considerable amount of information must therefore result from it.

English.

In the Department of English the increase in the number of post-graduate students, which has been such a feature in recent years, has continued. Thirty-nine post-graduate students, including some from Canada, Australia, the United States, and India, were at work last Session. The Lord Northcliffe Lectures in Literature were delivered last term by Professor Gilbert Murray, who took as his subject "Æschylus, the Creator of Tragedy," and acted as a great stimulus to the Department. Other special lectures arranged in connection with the Department are recorded in the list given on pp. 71–75. Reference to the changes in the Staff is made elsewhere.

Scandinavian Studies.

In the Department of Scandinavian Studies, under the direction of Professor J. G. Robertson, full curricula are offered in the three languages and literatures, and the work is supplemented by a course in Old Norse, given by members of the Department of English. There are at work this Session 12 students taking Danish, 9 taking Norwegian, 20 taking Swedish, and 11 taking Old Norse. Public Lectures by the three lecturers, Mr. Helweg, Mr. Gröndahl, and Mr. Wijk, continue to form an important aspect of the work of the Department.

Dutch Studies. This Session there are 38 students enrolled for the courses given at the College by Professor Pieter Geyl, Professor of Dutch History and Institutions. It was a matter of regret that Dr. Haantjes, the Reader in Dutch Language and Literature, was, owing to a serious breakdown in health, obliged to be absent during the Third Term of last Session. Mr. C. M. Van den Heever acted as his deputy. There are 7 students taking Dr. Haantjes' courses at the College this Session, but the majority of his classes are held at Bedford College.

French. Professor Brandin was, unfortunately, absent during the Second and Third Terms of last Session on account of illness. Members of his staff carried on the work of the Department with the kindly help of Professor Eccles, of Bedford College, and Miss L. W. Stone, a former student of the College who is now Reader in Romance Philology at King's College. The Committee are happy to record that Professor Brandin has now been restored to health and is once more able to carry on his work.

Italian. The Department of Italian records a satisfactory increase in the number of students who are working for Honours in that subject. There are 7 such students at work this Session, a like number taking Italian as their subsidiary subject. The Department co-operated last Session with the Professor of the History of Art in arranging a course of Public Lectures on "Italian Art" with special reference to the Exhibition of Italian Art which was held at Burlington House. It created considerable interest and drew large audiences. The lecturers and their subjects are included in the list at the beginning of this section. A Special Course in Italian for Army Officers has been arranged this Session at the request of the War Office.

Phonetics. The Department of Phonetics continues to act as a valuable auxiliary to the Modern Language Departments. A considerable portion of its teaching work is done in the evenings and vacations (see p. 83). Of the 244 students taking courses in the Department last Session, 136 came from foreign countries. Forty-four entered for the various Certificate Examinations, which is the highest number yet recorded. Researches have been actively prosecuted, and among them may be mentioned the following:—Miss Ward has carried out an investigation into the phonetic structure of the Efik language of Nigeria; Miss Quick has completed her analysis of the phonetics of Dutch and has embodied the results in a Dutch Phonetic Reader; Miss Coustenoble has worked on the phonetics of Modern Provençal; Mr. Firth's book, 'Speech,' is an important contribution to the study of Linguistics; Mr. Stephen Jones has been occupied with the construction of a "reed analyser," by means of which it will be possible to record intonation directly on to a kymograph.

History. The scope of the Department of History has been enlarged by the institution of the Commonwealth Fund Chair of American History and the appointment of Mr. Hale Bellot as Professor. He was absent in America until the opening of the Second Term, but arrangements were made for carrying on the work in American History pending his return. As a part of the scheme for the teaching of this branch of History, Professor D. S. Muzzey, of Columbia University, has accepted an invitation to deliver a Course of Eight Lectures on "America since the World War" in the current term, the necessary financial provision being made from

the Commonwealth Fund Endowment. It has been a matter of regret that Professor Vaucher has been absent during the First Term, and so far has been unable to return, on account of illness. Other members of the staff are carrying on the work in Modern French History. The Committee hope that he will be speedily re-established in health. The Reader in the History of London, Miss Jeffries Davis, is now able, with the better library accommodation that has been supplied for her subject, and with the co-operation of the Librarian, to carry into effect an arrangement of books in such a manner as to provide a valuable demonstration of the course of London historiography, which is nowhere else available. Her public lectures on the "Re-plannings of London *circa* 1520–1920" created considerable interest last term. A repetition of the course is being given this term for the benefit of those who can only attend in the evening.

Political Economy.

The development of work in the Department of Political Economy, which has been such a notable feature of recent sessions, has continued during the period under review. There are 59 students, some of whom are post-graduate, at work this Session (as compared with 40 last Session) 55 of whom are working for the Degree. Mr. N. F. Hall, Senior Lecturer and Acting Head of the Department, who also acts as Tutor to Higher Civil Service Students, is to be congratulated, not only on the progress of his department, but also on the successes that have been obtained by his students in open competition for the Home and Indian Civil Services. The second, ninth, and tenth places were obtained in the Indian Civil Service Examination by students from the College, and in the open competition for both the Home and Indian Civil Services combined, gratifying results were also obtained.

Philosophy.

In the Department of Philosophy the need for further seminar classes has been to some extent met by the conversion of Dr. Keeling's Lectureship into a full-time appointment. Students of the departments of Economics and History have benefited from some of the courses offered. There is a steady increase in the number of students taking Philosophy as part of their course.

Geography.

Leave of absence has been granted to Professor Fawcett for the First, and part of the Second, term of the current Session in order to enable him to accept an invitation from Clark University, Worcester, Mass. Professor J. F. Unstead has kindly undertaken temporary charge of the Department of Geography and the supervision of post-graduate students in his absence. There is a notable increase in the number of students at work in the Department. There were 76 in the Intermediate Class last Session as compared with 54 in the preceding Session. Some of this increase is due to the growth of the Department of Economics. A reference is made elsewhere to the resignation of Miss Shackleton, who had been a member of the staff of the Department for nine years, and to the appointment of Mr. G. Tatham, B.A., as Assistant.

FACULTY OF LAWS.

The teaching arrangements in the Faculty of Laws, consequent on the death of Mr. Gilbert H. Hurst, Reader in English Law, are at present under consideration. As an interim arrangement, Mr. J. B. Richardson, Lecturer in Equity, is carrying on Mr. Hurst's work.

The growth in Tutorial Work has resulted in the appointment of a third assistant for this purpose, Mr. C. J. Hamson, B.A. The Faculty now provides its own Latin teaching.

There are 80 day students in the Faculty this Session, and 23 evening students.

FACULTY OF SCIENCE.

Applied Mathematics.

The new University Observatory at Mill Hill, of which Professor Filon is the Director and Mr. C. C. L. Gregory the Wilson Observer, is proving of great value in connection with the astronomical work of the Department, and occupies a good deal of the time and energy of the members of the staff who are concerned. A new building to house the 8-inch Refracting Equatorial Telescope, the gift of which by Mr. H. R. Fry was recorded in the last Report, has been erected in the Observatory grounds.

Psychology.

The Department of Psychology has benefited considerably from its increased accommodation and improved resources, and an attempt is being made to collate the results of investigations that have been carried out in past years on individual differences of mental make-up. Many workers of the Department are extending their researches in mental clinics and hospitals with a view to completing the investigations. The work is being developed in co-operation with other departments of the College, and the scheme planned for the future of the department will largely depend on such co-operation.

Botany.

Over 190 students were at work in the Department of Botany last Session, which is the highest number yet recorded. As a result, the available accommodation has been strained to its utmost limits, and further expansion is one of the needs that will have to be met in the near future. The grounds of the University Observatory have been laid out as a miniature botanic garden, and will prove a useful supplementary source of material for class purposes.

Chemistry.

The appointment of Professor C. K. Ingold, is recorded on p. 69.

There were 64 students engaged in carrying out researches in the Deparment of Chemistry last Session. The Committee are glad to take this opportunity of acknowledging the continued assistance that is received from Imperial Chemical Industries Ltd. in this research work. As a matter of interest, it may be recorded that a Liquid Air machine, used by the late Professor Sir William Ramsay (believed to be the first used in this country) and some of his original apparatus and preparations have, with the approval of the Court, been placed on permanent loan in the Science Museum.

Physics.

The improvement of the Equipment of the Department of Physics has continued and further dark-room accommodation has been provided. Mr. N. Eumorfopoulos has made a valuable gift of books to form the nucleus of a departmental reading-room.

Zoology.

The immediate need of the Department of Zoology for accommodation that will permit a fuller development of the subject is referred to on p. 23. Pending the provision of such accommodation, the work of the department is being carried on with considerable difficulty. Practical work in Comparative Physiology has been undertaken, the necessary accommodation being found by the conversion of a staircase into a private room, and the re-equipment of the museum annexe as an Experimental Laboratory. It is

interesting to note that this room thus returns to its use of 1853, when the first class of Practical Physiology ever conducted in Britain was held there.

Following on the resignation of Dr. T. A. Stephenson, Senior Lecturer (p. 69), Dr. Ruth Deanesly, a research worker and former member of the Staff in Embryology, has been invited to give special assistance for the remainder of the Session.

Chemical Engineering.

A College Diploma in Chemical Engineering, open to qualified persons who have pursued a course extending over not less than three terms, has been instituted. Eleven students took the full course in the Department last Session, as compared with six in the previous Session, and three others were engaged in carrying out researches. A reference to the provision of a permanent and adequate laboratory is given on p. 62.

FACULTY OF ENGINEERING.

The Drawing Office accommodation for the Senior Years in all departments of the Faculty has been considerably improved. A fuller reference is made on p. 63.

In the Department of Electrical Engineering, the Undergraduate Lectures and Laboratory Courses are now arranged in the two divisions of Electrical Machinery and Electro-Communications, with the object of correlating a sound training in principles with the trend of current practice. The re-arrangement of the available laboratory and workshop space, which was undertaken in 1929, has had beneficial results, providing better facilities for the larger number of students now at work in the Department. The measurement work on transmission lines has been put on a systematic footing and has been further developed in co-operation with the Electrical Research Association.

FACULTY OF MEDICAL SCIENCES.

Anatomy & Embryology.

Leave of absence was granted to Professor Elliot Smith at the opening of the Session in order to enable him to accept an invitation from the Chinese Government to study the remains of the primitive man, Sinanthropus, found in a fossil state near Peking. Some account of his investigations was given in a public lecture delivered at the College in January, which created considerable interest. A further application of radiology to teaching and research in anatomy is being pursued in the Department. Dr. W. J. Perry, Reader in Anthropology, was absent on field-work in South Africa last Session, for the purpose of which he was awarded a Fellowship by the Rockefeller Foundation. Co-operation in the development of anthropological research between this College and other Universities concerned is one of the developments to be noted.

Physiology & Biochemistry.

The active prosecution of research work in the Department of Physiology and Biochemistry has continued. There were 37 students carrying out researches last Session. Some of the results of their work are embodied in Original Papers, the long list of which is given in the current Calendar. So far, 29 research students have

registered this Session. A post-graduate course of lectures in Biochemistry was given for the first time last Session. The changes in the Staff of the Department are referred to on p. 69.

Pharmacology.

The Department of Pharmacology also records a considerable number of researches in progress. Advanced lectures in pharmacological chemistry now form part of the programme of work. Professor E. B. Verney was absent during the major portion of the First Term on account of illness. The Committee hope that he will speedily be restored to his former health and strength.

THE LIBRARY.

The space devoted to the Library in the main block of College buildings was extended during the Session 1929–30 by the provision of a room for the Sectional Library of Philosophy and Psychology adjoining the Department of Psychology. The room previously occupied by these books in the Arts Corridor has been devoted to the collection of books dealing with the History of London, which have been completely re-classified.

Information that a non-recurrent grant of £1,500 had been made to the College for Library purposes by the University Grants Committee was received by the Library Committee with great satisfaction. A number of Sub-Committees are at present engaged in considering how this grant can best be used to meet the most urgent needs of the Library.

As a measure of economy, it has been found necessary in the Faculty of Medical Sciences to revise very drastically the list of subscriptions to periodicals, and to abandon the purchase of a large number of important journals.

The task of cataloguing the large collection of books bequeathed to the College by the late Sir John Rotton has proceeded steadily, and more than half of this work has now been completed.

As a result of the adoption of the new Library Regulations, to which reference was made in the last Report, the number of names on the Library borrowers' register increased in the Session 1929–30 by 244 and the number of books burrowed by 2,600. These increases have inevitably added considerably to the work of the Library Staff in the General Library.

The additions made to the Library during last Session numbered 3,605 volumes and 2,357 pamphlets, making a grand total of over 311,000 volumes and pamphlets in the College Library.

EVENING AND VACATION COURSES, AND MEETINGS OF OUTSIDE SOCIETIES.

The evening activities of the College are maintained, and the buildings are open on five evenings of the week for the purpose of special work, mainly of a post-graduate character.

In the *Evening and Post-graduate School of History* the number of students enrolled for the current Session is 126. The work of the School is highly valued by school teachers and specialists in History. It is carried on in close co-operation with the Institute of Historical Research, of which Professor Pollard is Director. Mr. Norman Baynes is Director of the Evening School.

There are 100 students in the *Evening School of Geography* this Session, which is a slight increase on the number of last Session.

The *Evening School of Phonetics and Spoken Language* attracts large numbers of teachers of Modern Languages, and its influence on methods of language teaching continues to spread. There are, so far, 139 Students registered for courses in the Department this Session. A Summer Vacation Course in Spoken English for Foreign Students was held in the Long Vacation of 1930, as well as a Short Course in French Phonetics for Teachers, arranged at the request of the Board of Education. The number attending the former course was 116, the students coming from 19 countries.

The meetings of the Philological Society, the British School of Archæology in Egypt, the Ancient Egypt Circle, the Folk-Lore Society, the Geologists' Association, the Society of Radiographers, the Jewish Historical Society, and the University of London Law Society are held regularly in the College.

In addition to these, other Societies, including the Classical Journals Board, the British Society of Franciscan Studies, the British Institute of Philosophical Studies, the British Psychological Society, the British Mycological and Ecological Societies, the Society of Glass Technology, and the Television Society, have met from time to time.

The following have also held meetings at the College:—The London Regional Federation of the League of Nations Union, the Physiological Society of Great Britain, the Faraday Society, the London Branches of the Geographical Association and the Classical Association, the Modern Humanities Research Association, the International Committee of Historical Sciences, the Union of Teachers of the Deaf, the National Institute for the Deaf, the Social and Political Education League, the Council of the Central Library for Students, the Joint Standing Committee on Library Co-operation, the Union of Hebrew and Religion Classes, the School Nature Study Union, the Parents' National Educational Union, the Montessori Fellowship, and the Association of Teachers of Domestic Subjects.

The Nineteenth Annual Conference of Educational Associations was held at the College in January 1931. The Anglo-American Conference of Historians and the Celtic Congress were held in the Long Vacation of 1930. The London Branch of the Leeds University O.S.A. dined in the College Refectory.

Five University Tutorial Classes are meeting at the College this Session.

Student Movement House was granted accommodation at the College to carry on its social work during rebuilding.

The London Student Players, a party of University students from Denmark, and the Jewish Students' Union were granted the use of the Gymnasium for dramatic performances

The Federation of London Working Boys' Clubs was again accommodated in the Slade School, in January 1931, for a Drawing Competition, in which a member of the Slade School co-operated in setting and judging the work.

The Holborn and St. Pancras Scouts' Associations were granted accommodation for social meetings.

SPECIAL EVENTS.

Presentation to Sir Gregory Foster.

H.R.H. Prince Arthur of Connaught, at a ceremony in the Botanical Theatre on Wednesday, 9th July, unveiled the portrait of Sir Gregory Foster, Bt., painted by Sir William Orpen, Fellow of the College, in the presence of many of the Subscribers and other friends. The Viscount Chelmsford, Chairman of the College Committee, accepted it on behalf of the College. His Royal Highness then presented to Sir Gregory the Album of Signatures and a cheque. Sir Gregory, in his reply, gave some interesting reminiscences of the College, from his student days onwards, and of some of the great men who were associated with him in the promotion of its growth. Tea was served afterwards on the South Lawn, and many present took the opportunity of wishing Sir Gregory and his daughter *bon voyage* to South Africa. The College Committee are glad to know that he has benefited greatly from the trip and has returned with renewed health and vigour.

The presentation was arranged by the Foster Commemoration Committee, which was formed in connection with Sir Gregory's retirement from the office of Provost, to which full reference was made in the last Report, with Lord Chelmsford as Chairman, Professor R. W. Chambers as Hon. Secretary, and Mr. N. Eumorfopoulos as Hon. Treasurer. The portrait now hangs in the Council Room.

On 30th April, 1930, the 103rd Anniversary of the laying of the foundation stone of the College by H.R.H. the Duke of Sussex, the annual Fellows' Dinner was held, Emeritus Professor Sir John Rose Bradford presiding. The new Honorary Fellows and Fellows were the Special Guests. Documents and pictures relating to the history of the College were on view.

On 27th May a meeting of Public School and University Students, arranged under the auspices of the London Council of Social Service, was held in the Great Hall. His Grace the Archbishop of Canterbury addressed the gathering on "The Claims of Social Service." The Provost received certain invited guests at tea before the meeting.

On 27th June the Seventh Dinner to the Ramsay Memorial Fellowship Trustees and the Ramsay Memorial Fellows was held, the Provost acting as host.

On 30th September the new Exhibition Room, of which a description is given on p. 62, was formally opened by the Vice-Chairman of the College Committee, Emeritus Professor Sir John Rose Bradford, Sir Joseph and Lady Duveen being present. The ceremony was preceded by a luncheon party.

On 26th November the Anglo-German Academic Bureau held a German Evening in the Great Hall. His Excellency the German Ambassador and the Baroness Von Neurath were present and were received by the Provost on their arrival. Sir E. Denison Ross presided, and among the speakers was Dr. C. H. Becker, Minister of Education in Prussia 1921-29, Professor of Oriental History at the University of Berlin, who gave an address on "The Part of Youth in British-German Intercourse." Many English and German Students were in the large audience. A German scientific film, "The Wonder of Flowers," demonstrating the growth and blossoming of plants, was shown for the first time in England. Their Excellencies and other invited guests took refreshments with the Provost and Mrs. Mawer during the evening.

On 28th November, the Anniversary of the Granting of the Royal Charter by His Majesty King William IV. in 1836, the Provost and Mrs. Mawer held a Reception at the College. The Charter and other historical documents, together with early printed books and bindings from the Library, were on view in the Exhibition Room, a concert arranged by the College and Hospital Music Association was given in the Botanical Theatre, and there was dancing in the Great Hall.

On 20th January, 1931, the Second Walter Seton Memorial Lecture was delivered by Professor F. C. Burkitt, D.D, F.B.A., on "St. Francis of Assisi and Some of His Biographers," before a large audience. The Chair was taken by Profesors R. W. Chambers, who gave an eloquent appreciation of the life and work of Dr. Walter Seton, late Secretary and Fellow of the College.

STUDENTS' ACTIVITIES.

The Union Society and the Women's Union Society record a year of activity and progress. The Inter-Union Standing Committee continues its useful function as a co-ordinating link between the two Societies. The programme for the Foundation Week of 1930 included an Oration on "The Mountain Barrier of Northern India" by General the Hon. C. G. Bruce, Chief of the Mount Everest Expeditions in 1922 and 1924; performances by the Dramatic Society of two short plays, "The Women have their Way," translated from the Spanish of the Quintero Brothers, and "The Proposal," by Anton Tchekov, produced by Mr. A. D. Munrow and Mr. H. G. Gee respectively; a Concert, a Debate, and a Dance.

The athletic activities of the Union Society have been maintained, and College men have continued to take their share in University athletics. The Association Football Club won fourteen out of twenty-five matches played last season, and reached the semi-final of both the Intercollegiate and the Technology Cups. The Rugby Football Club played twenty-nine matches, winning eleven of them, and had four men playing for the University. The Boxing Club beat a combined team from King's College and Goldsmiths' College: the Inter-Faculty Cup was won by Arts. The Rowing Club won the Winter Eights for the third time in succession and both divisions of

the Allom Eights last season, and this season they were runners-up: there were six College men in the 'Varsity Crew that beat Reading in March. The Swimming Club won the Intercollegiate Team Race, and were runners-up in Water-Polo.

The Union Debating Society celebrated its Centenary in 1930.

The Women's Union Society's athletic activities have also flourished. The First Hockey Team, the Second Netball Team, and the Rowing Club won their respective Intercollegiate Cups, the Rowing Cup being gained for the Shell Eight, the Clinker Eight, and the Pairs Race. Members of the Badminton, Cricket, Fencing, Lacrosse, Netball, Rowing, Swimming, and Tennis Clubs have played regularly for the University. This season the Lacrosse Team and the Second XI. Hockey Team have reached the semi-finals in the Intercollegiate Cup Matches.

Both Union Societies have been working hard to raise funds towards the redemption of the debts on the Athletic Grounds, referred to on p. 24, and have displayed considerable ingenuity. Through the efforts of the Union Society Appeal Sub-Committee a special "Perivale Pipe" of generous proportions has become popular. A Dance-Band, available for hire for College Society functions, has been formed with the same object.

The Women's Union Society Reading Room has been redecorated and provided with a new carpet and curtains, and better lighting, the comfort and appearance of the room being greatly improved.

The Women's Union Society At Home in May was a great social success, and was attended by a large number of members and friends of the College.

Mr. C. T. Lofthouse accepted the office of Music Conductor as from the opening of the current Session, in succession to Dr. Chanter. Under his direction, the College and Hospital Music Association are hard at work, holding regular meetings and doing much to promote the musical side of College life. In addition to their own informal musical evenings, they have arranged concerts in connection with College functions, and have supplied orchestral music for the performances of the Dramatic Society.

The Lunch-Hour Concerts, the arrangement of which has also been taken over by the Music Association, are attended by large numbers of members of the College, and it is evident that they are greatly appreciated. Thanks are due to the following artistes, who have kindly assisted in the concerts that have been arranged since the issue of the last Report; their names are given in the chronological order of their recitals:—Mr. Harold Fairhurst (Violin) and Miss Karin Ohman (Soprano); the Pirani Trio; Mr. Gilbert Bailey (Baritone), with Miss Edith Ashby at the Piano; The Rowena Franklin String Quartet; Mr. Reginald Paul (Piano); Miss Ruth Arranjo and Miss Denise Durbec (Violins); and Miss Reiss-Smith ('Cello).

The Dramatic Society has worked with great enthusiasm, and has maintained the high standard that has been set in recent years. In addition to the Foundation Play, three performances of "The Return of the Prodigal" (St. John Hankin) were given last December, the producer being Mr. Gilchrist Bennett. In January 1931 two further series of Mr. Laurence Housman's "Little Plays of St. Francis," including several that had not previously been performed and some that are unpublished, were presented. They were produced by Mr. A. S. Gilbert, six evening and two afternoon performances being given. The proceeds will, as in former years, be divided between the British Society of Franciscan Studies and Charities, including the St. Christopher's Working Boys' Club. The keen interest, both inside and outside the College, shown in this week of Franciscan Plays, which has now been held early in the New Year for seven successive years, is a tribute to the sincerity of the players and the care and skill devoted to the production. The performances will always be associated with the memory of Dr. Walter Seton, to whose enthusiasm and initiative their inception was due.

The Architectural Society has continued its practice of arranging dramatic performances, and produced in February last, under the direction of Mr. Laurence King, Karel Kapek's "R.U.R.," with considerable artistic success. The proceeds, amounting to £50, were given to the Centenary Appeal Fund.

It is impossible to present a detailed record of the various College societies that are at work. The following have sent in reports that show considerable activity :—The Ancient History Circle, the College and Hospital Anthropological Society, the Archæological Society, the Architectural Society, the Botanical Society, the Chemical and Physical Society, the Classical Society, the Critical Society, the Ethical Union, the French Society, the Geographical Society, the German Society, the Greenough Club (Geology), the Historical Society, the International Society, the Jevons Society (Economics), the Librarianship Students' Association, the Literary Society, the Mathematical and Physical Society, the Philosophical Society, the Physiological Society, and the Zoological Society.

The Faculty of Arts Society, the Faculty of Science Society, the University of London Law Society, the Engineering Society, and the Medical Society have all done valuable service in promoting the welfare of their respective Faculties.

The College Branches of the Student Christian Movement, the London Inter-Faculty Christian Union, and the University of London Catholic Society have held regular meetings and services. The two former also meet in Study Circles. The College Branches of Toc H and the Scouts are flourishing; the Guide Club has been converted into a Ranger-Cadet Company, whose primary object is to provide officers and instructors for the future.

The Old Students' Association and the Guild of Graduates have continued their important work of keeping past and present students in touch with one another and with College and University movements. Mr. B. N. Parker, who did so much as Honorary Secretary

of the O.S.A. to increase its membership and develop its social work, was obliged to resign on leaving the College to take up his new appointment at Kinmel School, Abergele, North Wales. Dr. H. E. Monteagle Barlow, Senior Lecturer in the Department of Electrical Engineering, has succeeded him as Honorary Secretary, and is devoting considerable time and energy to the work. He has the assistance of Miss E. Muriel Jukes, herself an old student of the College, the Alumnus Secretary. The Guild of Graduates arranged the usual Complimentary Dinner to New Graduates on 13th May, the eve of Presentation Day.

The St. Christopher's Club for Working Boys in the neighbourhood of the College provides a practical outlet for social work on the part of the students. A Senior Summer Camp was held at Seaford in 1930, and Summer outings were arranged for the Juniors. Under the new War Office Regulations, the Cadet Corps has been disbanded, but the Scout Troop and Cub Pack continue. It was not possible to hold the usual Annual Gymnastic Display last year, but arrangements are in progress with a view to holding one at the end of February.

THE HALLS OF RESIDENCE.

The Council of College Hall, which provides residence for Women Students of the College, the London School of Medicine for Women, and other Colleges, are engaged with the task of collecting funds to carry out a rebuilding scheme on a new site that has been acquired in Malet Street. Plans have been approved for a building that will accommodate 112 residents. The Hall has been in urgent need of more adequate premises for many years, and the work has been carried on under considerable difficulty with temporary extra accommodation in houses in the neighbourhood. Seventy-one residents were accommodated last Session, the majority of whom were students of the College. Dr. Mary Brodrick has continued to show her warm and practical interest in the welfare of the Hall, both by personal visits and by gifts to improve the social amenities. The office of Treasurer, which has been vacant since the death of Lord Avebury, has been accepted by Mr. David Robarts of Messrs. Coutts' Bank.

The plans for the extension of University College Hall, Ealing, were carried out by the end of last Summer, and the new wing was declared open by Lord Loch on October 4th. The Hall now accommodates eighty-six residents, and was full at the beginning of of the Session. It has a large new Dining Hall, a Gymnasium, and an extra Common Room.

THE WINIFRED SMITH MEMORIAL.

(The Old Forge, Chiddingly.)

The Chairman of the Committee of Management of the Winifred Smith Memorial (The Old Forge, Chiddingly), which is held in trust for the benefit of the Women Students and the Women Members of

the Staffs of the College and of College Hall, London, reports that during the period from 1st September, 1929, to 31st July, 1930, thirty-four visitors stayed for one or more nights at the cottage. The income of the Endowment Fund (which is at present £4 10*s.* 0*d.*) is used to reduce the cost to visitors staying at the cottage.

A grant of £10 from the Crabb Robinson Fund has again been received for the Maintenance Fund.

Professor F. W. Oliver has resigned his seat on the Committee, and Sir Gregory Foster has been co-opted in his stead.

Miss Edith Goodyear is Chairman of the Committee of Management, Sir Gregory Foster Hon. Treasurer, and Miss H. Winifred Husbands Hon. Secretary.

THE CRABB ROBINSON FUND.

During the financial year 1929–30, the following grants were made from the Income of the Crabb Robinson Fund :—

APPENDIX V.

UNIVERSITY OF LONDON, UNIVERSITY COLLEGE.

REPORT OF THE EXECUTIVE COMMITTEE OF THE CENTENARY APPEAL FUND.

1925–30.

1. The development of the College, under the new conditions brought about by the reconstitution of the University of London in 1900, has followed generally a scheme that was published in 1902.

2. Many of the projects included in that plan had been brought to completion by 1925. The position was then reviewed in the light of the needs of university education at that time. With a view to meeting the most urgent of those needs it was decided to appeal, in connection with the Centenary of the College, to the members and friends of the College, as well as to the general public, for a sum of £500,000. The purposes for which this sum was required were described as follows:—

A. Great Hall	£30,000
B. Endowment of Teaching	225,000
C. Completion of Gower Street Front	25,000
D. Chemical Laboratories: Electrical Installation	15,000
E. Zoology and Comparative Anatomy: Site and Buildings	50,000
F. Applied Mathematics and Physics: Reconstruction and Equipment	8,000
G. Engineering: Completion of Laborator es and of Equipment	18,000
H. Faculties of Arts and Laws	25,000
. Chemical Engineering Laboratory: Equipment and Endowment	60,000
J. Libraries: Endowment and Reconstruction	30,000
K. Scandinavian Studies	10,000
Miscellaneous Needs	4,000
	£500,000

3. The result of the efforts of the Centenary Fund Committee to 31st July, 1930, is that a sum of £227,764 6*s.* 1*d.* has been raised. The purposes for which the several sums have been allocated are indicated below;—

Purpose.	*Sums received or promised.*
A. Great Hall	£26,149 1 8
B. Endowment of Teaching	86,130 13 11
C. Completion of Gower Street Front	361 1 9
D. Chemical Laboratories: Electrical Installation	12,962 12 6
E. Zoology and Comparative Anatomy: Site and Buildings	1,217 4 6
F. Applied Mathematics and Physics: Reconstruction and Equipment	59 7 6
G. Engineering: Completion of Laboratories and Equipment	16,616 1 1
H. Faculties of Arts and Laws	1,180 7 6
I. Chemical Engineering: Equipment and Endowment	60,771 3 6
J. Libraries: Endowment and Reconstruction	7,123 18 9
K. Scandinavian Studies	11,061 12 7
Miscellaneous Needs	*4,131 0 10
	£227,764 6 1

* This sum includes donations which were not specifically allocated.

4. The expenses of the Appeal have come to about 4 per cent. of its product, a ratio which the Committee regard as satisfactory. Several proposals for employing a paid professional organizer were considered but rejected; and except for a small honorarium which was paid for a time to Dr. Crowden, the work of those whose energies were devoted to canvassing for donations has been entirely voluntary. The paid clerical labour involved, however, was necessarily considerable, in view of the widespread nature of the Appeal and its intensive prosecution in likely quarters.

5. The original scheme of the Centenary Fund has been closely adhered to, except in the cases of the Departments of (*a*) Zoology and Comparative Anatomy and (*b*) Chemical Engineering. In the case of the former Department a sum of £50,000 was appealed for. This sum was to provide the site, buildings, and equipment for a new Department. It did not, however, provide for the endowment of the Department, nor for the extension of its activities in accordance with modern requirements. The International Education Board interested

itself in the matter, and expressed its willingness to support a wider scheme which would include the original aims and much more beside.

The Capital required for the whole scheme is (*a*) for Site, Building, and Equipment, £50,000; (*b*) for Endowment (to produce, say, £9,500 annually) £190,000, giving (*c*) a total of £240,000.

Towards this total of £240,000 required for the new scheme, the International Education Board offered £120,000, provided that the balance could be raised within a reasonable period, either in the form of capital or of permanent income. The Committee must now remit to the College Committee the consideration of plans for making good the balance, in order to claim the gift so generously promised by the International Education Board.

6. *Chemical Engineering.*—The position and needs of Chemical Engineering were carefully reviewed by those specially interested in its development As a consequence a Committee under the Chairmanship of the Rt. Hon. Lord Melchett, with Sir Robert Waley Cohen as Vice-Chairman and Sir David Milne-Watson as Treasurer, was established. This Committee came to the conclusion that the sum of £60,000 originally set out in the Centenary Appeal document was insufficient, and decided to increase it from £60,000 to £170,000, made up as to £50,000 for building and equipment, and as to £120,000 for endowment, the latter to be raised either in the form of capital or in the form of annual subscriptions, or partly in one way and partly in the other.

Towards the building and equipment fund £27,516 3*s.* 6*d.* has already been paid or promised, and towards the maintenance fund a total of £33,255, spread over ten years, has been paid or promised. Here again the College Committee will no doubt decide on the necessary organization for raising the balance.

7. *American History.*—As a sequel to the visit paid by Lord Loch and the late Dr. Walter Seton to the United States, a movement was initiated for the institution of a Chair of American History. With the assistance of a Committee in London, under the Chairmanship of Lord Loch, with Sir Frederick Macmillan as Treasurer, and of a like Committee in New York, with Mr. Otto Kahn as Treasurer, this object was achieved.

In September 1929, the Commonwealth Fund of New York made the munificent benefaction of $214,500 as an endowment for the professorship and assistantships in American History. A sum of £4,866 collected by the London and New York Committees will be available for purposes ancillary to the Commonwealth Chair of American History, and especially the development of the Library of American History. This is mentioned as an interesting and valuable sequel of the Appeal; but the College Committee will appreciate that it is not a matter for which the Centenary Appeal Committee has had any responsibility.

8. Three lists of subscribers to the Appeal Fund have already been issued, and a further list up to 31st July has been compiled. The Committee have written off certain promises which are now, for various good reasons, unlikely of fulfilment. They believe that all

outstandings are at present capable of realization. The Committee wish to record their sincere gratitude to the subscribers of all degrees for their generous assistance.

9. The result of the Appeal has fallen short of its aims. On reviewing the whole situation, however, the Appeal Committee see no reason for serious disappointment. The sum desired was large, and the appeal issued at a time when the country was passing rapidly from the post-war boom into a trough of industrial and financial depression. Those conditions persist, and the fountains of private generosity have rarely been drier than they are to-day. Thus there is considerable reason for satisfaction that the Appeal has enhanced the resources of the College by nearly quarter of a million sterling.

10. In the opinion of the Committee, no good purpose would be served by keeping the Centenary Appeal, as such, in further activity, and they recommend that it be closed as from 31st July last. The accounts have been made up and balanced as from that date, in anticipation of the College Committee's orders.

11. The Appeal Committee wish to record their respectful and cordial appreciation of the encouragement which their work has received from H.R.H. Prince Arthur of Connaught, who has been Patron of the Fund throughout.

12. The Committee are indebted to the Rt. Hon. Viscount Chelmsford for consenting to act as their President, and for the advice and counsel which he has always readily placed at their disposal.

13. The Committee desire to express their high appreciation of the great services which Lord Meston, who has acted as Chairman throughout the five years of the Appeal, has rendered.

14. Sir Robert Kindersley has been Honorary Treasurer of the Fund since its inception, and has thrown himself whole-heartedly into its service. He was always available for consultation, and his help went far beyond the scope of a Treasurer's ordinary duties. In particular, his personal intervention in our approach to the City of London was invaluable, and the Committee wish to place on record their warm sense of his untiring courtesy and helpfulness.

15. The Committee have, at an earlier date, recorded their sense of the grievous loss sustained by the death of Dr. Walter Seton, the Honorary Secretary from September 1925 to January 1927. His grasp of the whole situation and experience of similar previous endeavours were of inestimable value.

16. In the actual labour of pursuing the Appeal, interesting the public generally, and likely donors in particular, the former Provost, Sir Gregory Foster, Bart., displayed continuous energy and resource. He devoted a large portion of his strength and his leisure to the movement, and the Committee are sincerely grateful to him for his help and guidance.

17. The Committee wish to thank the Union Societies for the large part they played in organizing a special appeal for the Great Hall

Fund. As a result of their efforts a sum of £2,772 was raised, and thanks are especially due to Mr. N. Eumorfopoulos, who acted as Honorary Treasurer throughout, and gave unstinted time and energy.

18. In connection with a special appeal that was organized on behalf of the Slade School, Mr. C. Koe Child rendered invaluable service, and a sum of over £1,000 was thus raised.

19. It would be impossible for the Committee to overstate their obligations to Dr. Francis W. Goodbody for the very special share which he took, and the contagious enthusiasm he showed, in promoting the interests of the Appeal at every stage and in all its aspects. Whether he served (as for a lengthy period he did) as Honorary Secretary, or helped as a purely non-official worker, he spared no effort, and gave unstintingly of his time and energy in the personal quest of subscribers, and in the devising of plans for furthering the purposes of the Appeal. The College owes him a debt of profound gratitude for his services.

20. He was ably supported, in the direction and administration of the Appeal from the College Office, by Miss Millicent Oldham, whose work was of the highest quality throughout, and on whom fell a heavy burden of long hours and tedious detail.

21. The Committee's thanks are due to Mr. C. O. G. Douie, who has acted as their Joint Honorary Secretary since October 1927, in addition to his other heavy duties, also to Mr. Parker, whose industry in research was fruitful, and to other members of the College staff who from time to time have helped our work.

2nd December, 1930.

UNIVERSITY OF LONDON, UNIVERSITY COLLEGE.

SCHOOL OF LIBRARIANSHIP.

DIRECTOR'S REPORT.

SESSION 1929–30.

During the Eleventh Session of the School of Librarianship the number of Students was as follows:—

Full-Time.		*Part-Time.*	
Men	12 (10)*	Men	34 (17)
Women	68 (44)	Women	37 (22)
	80 (54)		71 (39)
	Total	151 (93)	

* The figures in brackets mean First Entries.

The corresponding figures for 1928–29 were 80 (55), 47 (22), and 127 (77).

The part-time Students included 23 holding Free Places in the School under the scheme of the London County Council providing such places for selected workers in libraries in the metropolis. There were 3 Students from the United States, 6 from Scandinavian countries, and 4 from other countries in Europe and Asia. The Students holding degrees of this or other universities numbered 36.

The results of the Diploma Examination were as follows:—

Part I.				Part II. and whole examination.			
No. of Cand.	Passed.	Failed.	Ref. in 1 subj.	No. of Cand.	Passed.	Failed.	Ref. in 1 subj.
25	18	6	1	50	37	4	9

Twenty-four Students were awarded seventy Sessional Certificates in separate subjects.

The Sir John MacAlister Medal was won by Mr. D. G. Ramage, M.A., and the Director's Prize for the best work in Book-Selection by Miss Averil F. Thompson, B.A. The Entrance Exhibition for the Session 1930–31 was awarded to Miss Nancy H. Twist, B.A., and a Free Place in the School was granted to Miss Helen C. McInnes M.A. (Edinburgh).

Special short courses were given by Mr. Headicar on "Commercial and Business Library Organisation," and by Mr. Sayers on "Library Work with Children"; and the School is specially indebted to Major Cyril Davenport, Mr. Lionel McColvin, Mr. Douglas Cockerell, Miss A. S. Cooke, Mr. A. F. Ridley, and Mr. K. G. Hunt for Public Lectures on books, bookbinding, and various problems of Library administration and policy.

As usual, many visits were paid to libraries, paper-mills, presses, binderies, museums, picture-galleries, etc. A number of excursions farther afield were carried out by the Students' Association, who have regularly maintained their Magazine, published at the end of each term, and have also organised lantern-lectures and discussions at the College. It is interesting to note that the great majority of past students have now become members of the Library Association, and are entered upon the professional register.

During the vacations all Students taking a two-year course, and many of those taking the postgraduate course of one session, have undertaken practical work in public and other libraries in London and the provinces. Small groups have re-organised and re-catalogued various society libraries, and others have co-operated in the preparation of the Union Catalogue of the Libraries of London. All this work has been useful to the students themselves, and its value to the libraries concerned has been acknowledged by the local authorities.

Additions to the library of professional literature attached to the School have been as follows:—

Purchased ..	124 Volumes.	25 Pamphlets.
Presented ..	20 Volumes.	54 Pamphlets.
Total ..	144 Volumes.	79 Pamphlets.

There were changes in the Staff at the beginning of the Session, when Mr. H. W. Acomb, M.A., was appointed Lecturer in Practical Cataloguing and Mr. W. E. Doubleday Lecturer in Library Routine. They have taken up their work with energy, and are co-operating effectively with the rest of the Staff. Mr. J. Henry Quinn was invited to give three lectures on "Local Government in relation to Libraries."

The School is now housed in the Henry Morley Annexe, and both students and staff have found their work greatly facilitated by the removal to these new quarters.

The collection of lectures by the Staff published in 1927 in a volume entitled "The Uses of Libraries" has now been revised, and a new edition published by the University of London Press.

Toward the end of the session a scheme was prepared, and has now been passed by the Senate of the University, for an alternative course leading to the Diploma for graduates in faculties other than that of Arts who propose to become special librarians. Provision is being made for training in the alternative subjects.

Appended is a report on the Annual Vacation School, which was held in Florence in the Easter Vacation, 1930.

Director.

EASTER VACATION SCHOOL AT FLORENCE, 1930.

The Eleventh Vacation School was held at Easter this year from March 31st to April 12th at the British Institute of Florence, by the kind invitation of the Committee and the Director, Mr. H. E. Goad. Forty-two students entered for the course (one of these was obliged to withdraw), including 29 past and present students of the School of

Librarianship and 8 librarians and library assistants. The whole party, with the staff, numbered 46. Courses of lectures were delivered by the following:—The Director, on "Some Novelists, chiefly American"; Mr. Acomb, on "Problems of Modern Library Administration"; Mr. Goad, Professor Tealdi, and others, on "Florentine Architecture, Painting, and History." A practical class in English Phonetics was carried on by Mr. Lloyd James. Many of these lectures were also attended by members of the British Institute. The party was taken over the Biblioteca Nazionale and the Biblioteca Laurenziana by the Directors and staff. They also visited the Biblioteca Marucelliana and other libraries, and all the principal galleries, museums, churches and other monuments in Florence and the immediate neighbourhood were visited either in organised parties or individually. The members benefited considerably by the guidance afforded them in Professor Tealdi's lectures on the subject. There were full-day excursions to Siena and S. Gimignana, to Pisa, Lucca, and Pistoja, and to Vallombrosa.

With the exception of one or two staying elsewhere, the whole body of teachers and students were very comfortably housed at the Pensione Maria Pia. Mr. Goad gave valuable help in the preliminary arrangements. Thanks are due also to Major Stormont, of the Italian State Railways, for the extremely efficient way in which he arranged for the party to travel to Florence *via* the Tilbury-Dunkirk route, Lucerne and Milan.

Atelier	25	8	*33
Totals	147	30	177

* (This number includes 12 Fifth-Year Diploma and Degree Students counted already in Full-time Day Students' Returns.)

Town-Planning Department	27	6	*33

* (This number includes 12 Fifth-Year Diploma and Degree Students counted already in Full-time Day returns and in Atelier returns, and also 1 Special Architecture Student and 1 Engineering Student.)

Included in the total of Full-time Day Students are 41 (35 men and 6 women) who are taking the Five-Year Course for the B.A. Degree in Architecture; of these, 11 (10 men and 1 woman) hold Entrance Exhibitions.

I have pleasure in announcing that Mr. E. Forster was awarded the Silver Medal in the Alfred Bossom Travelling Studentship Competition; that Mr. E. Starling gained a Certificate of Honourable Mention in the "Tite Prize" Competition, and that he also won the £20 Prize awarded by the Royal Society of Arts in the Competition of Industrial Designs, being "Highly Commended" in the same competition.

Among posts obtained by our students, I may mention that Mr. A. C. Light, B.A., A.R.I.B.A., has been appointed Lecturer in Architecture at the National University of Ireland, Dublin.

Mr. Arthur Stratton, Reader and Tutor, supervised the individual work of the students. I regret that for reasons of health Mr. Stratton was compelled to resign at the end of the Summer term. He has

spared no pains to ensure efficiency in the work of the students. Mr. Hector O. Corfiato, Senior Lecturer, has been responsible for design work, under my supervision, both in the Day School, in the Evening School, and in the Atelier. Acknowledgments are due to the following Architects for serving on the Triennial Jury in connection with the work of the Atelier:—Messrs. Arthur Davis, H. V. Lanchester, Charles Lovett Gill, and Professor Adshead. Owing to the number of students in the Atelier, it has again been found expedient to use the Cast Gallery as well as the outside Atelier for the whole of the Winter Session. Students working in the Atelier have been engaged on the ordinary subjects determined for the Fifth-Year Students; one student, Mr. H. Townsend, was selected as candidate for the Final Competition for the Rome Prize. Another student, Miss Dorothy M. Norie, accompanied the Expedition to Zimbabwe as Architect to investigate the ruined buildings.

I have to record Mr. Corfiato's services for extra attendances in connection with the work of the Evening Department, and also to thank Mr. Warren Wilson, whose duties in connection with the decorative side of architecture have been extended in all years. This has raised the status of draughtsmanship very considerably. My thanks are due to Mr. Matthew Dawson for his support in the teaching of Architectural Construction. There has been closer association between planning and construction in addition to the selection of subjects for design, which have been more closely correlated to the lectures on theory and the assembling of materials. Mr. Stanley has rendered valuable assistance in the Day School, and Mr. Hyde is now in charge of the routine work of the Evening School. This session, owing to the resignation of Mr. Alabaster, we have welcomed two new members to our staff—Mr. Frank Scarlett, B.A., A.R.I.B.A. (an old student), and Mr. H. Ingham Ashworth, B.A., A.R.I.B.A., now working under my direction in the Studios and responsible for the work of the Junior Years.

Studies have again been continued at the British Museum and at the Victoria and Albert Museum. Several of my students have had opportunities of visiting and measuring some important Gothic churches which are in course of reparation, and I hope to encourage the study of mediæval craftsmanship and building methods with a view to some students being in a position to take up the repair of ancient monuments, etc. Visits have been made to modern buildings and others in course of erection.

As in past years, my thanks are due to Professor Adshead for his co-operation and for the training in Town Planning that he has given to my students; and also to Professor Tonks, through whom our advanced students have been able to continue their studies from Life in the Slade School; as a reciprocal measure, many Slade students have attended courses of lectures on the History of Architecture given by Mr. Stratton and myself: some of the Slade students have taken Architecture as a subsidiary subject for the University Diploma of Fine Art. In connection with the Government Pavilion at Antwerp, the co-operation of Slade students has been most useful. Here scope was found for wall paintings and maps of unusual interest, and I was able to create opportunities for old students of the Slade School.

In collaboration with Professor Coker, Second-, Third- and Fourth-Year Students have received instruction in Structural Engineering, Reinforced Concrete and Steel Work from Mr. Collins and Mr. Capper, of the Department of Civil and Mechanical Engineering, and Demonstrations in Engineering to our more advanced students have been given by Mr. Lloyd-Evans of the same Department. With the co-operation of Professor Ormsby, Mr. C. A. Hart, of the Department of Municipal Engineering, has given instruction in Surveying and Levelling. In addition, Dr. E. G. Richardson, of the Department of Physics, has again contributed lectures in Acoustics to our senior students.

I have given several Public Lectures this session—at Leeds, before the Yorkshire Society; at Bedford, before the Surveyors' Institute; at Stationers' Hall, before the Incorporated Society of British Decorators; and also at the Royal Institute of British Architects. In addition, I am actively engaged in preserving buildings and bridges; and my work as Honorary Architect to the Advisory Committee for the Restoration of the Bedfordshire churches continues: this work includes the supervision and repair of many buildings of national importance, such as the Priory Church at Dunstable.

With regard to publications, I have in the Press "Social Life and Art in England during the 18th Century," and another book dealing with "Wayfaring and the English Roads." Both Mr. Stratton and myself have made various contributions to the Press during the past year; Mr. Corfiato has contributed articles to the technical press, including an important essay on "Acoustics of a Concert Hall."

It is hoped that the new Atelier now being built in Gower Street will enable the work of the Department to be carried out under closer supervision; the fact that all the studios intended for post-graduate work will be under one roof is, in my opinion, a great advantage.

During the Winter Session the Museum was lent to Messrs. Daniel Neal and Sons, Ltd., for the purpose of exhibiting and judging a limited competition for their new premises, and, in return, Messrs. Neal offered a Prize of Ten Guineas for a similar competition among the senior students; this was judged by the Atelier Jury and the Prize was divided between Mr. H. F. Hoar and Mr. B. Spence.

I may add that this session the Proprietors of 'Building' have offered us an annual Prize of Four Guineas for the best set of drawings combining Construction and Design sent in by the Fourth-Year Students.

(Signed) A. E. RICHARDSON,
Professor.

THE DIVISION OF DECORATION.

It is satisfactory to be able to report an increase in the number of Full-time Students for the Session 1929–30, there being two re-entries and five new entries, all taking the Certificate Course and making a total of seven; one Part-time Student attended for the first term.

I am happy to report that Miss Mary E. Wilson (a Second-Year Student) was awarded Second Prize in the Competition organized by the Dorchester House Syndicate for the "Decoration and Equipment of a Sitting Room."

Both First- and Second-Year Students have followed the appropriate lectures—on the History of Architecture by Protessor Richardson and Mr. Arthur Stratton, on Building Construction by Mr. Matthew Dawson, on Design and Principles of Ornament by Mr. Warren Wilson, on Sciography by Mr. H. O. Corfiato, and on the History of Art by Professor Tancred Borenius.

Students have studied at the British Museum and at the Victoria and Albert Museum, South Kensington, where drawings have been made of the best examples of various crafts—wrought iron, stained glass, textiles, pottery, etc., and a reasonable standard of work has been attained.

During the session every Degree, Certificate, and Diploma Student in the School of Architecture worked in the Division of Decoration, a series of programmes being set which aimed at cultivating the taste of the student and rendering him as sensitive to the beauty of form, line, and colour as is possible.

(Signed) H. WARREN WILSON,
Lecturer in Decoration.

DEPARTMENT OF TOWN PLANNING.

I have to report that 33 students are now working in the Town-Planning Department—27 men and 6 women. Of these, 13 are taking Town Planning in connection with the Diploma Course in Architecture, 5 the Town-Planning Diploma, and 15 the Town-Planning Certificate.

Last year two students were successful in obtaining the Diploma, and five students obtained the Certificate.

An interesting area for special study this session was Elstree, and schemes were prepared in the studio for the development of Elstree as a satellite town to London. Several visits were made to the area by the students.

Amongst public appointments that have been made in Town Planning, may be mentioned that of Town-Planning Adviser to the Chesterfield Regional Planning Committee. Mr. H. W. J. Heck, who obtained the Diploma in 1926, was successful in being selected for this appointment.

Amongst other students who have been successful in obtaining appointments under Local Authorities may be mentioned Mr. H. G. Avery, who has been appointed Town-Planning Assistant to the Orsett Rural District Council, an important industrial area in South Essex.

(Signed) S. D. ADSHEAD,
Professor of Town Planning.

FORM OF LEGACY

I GIVE to the UNIVERSITY OF LONDON for the benefit of UNIVERSITY COLLEGE the sum of £ duty free,

(*a*) for the general purposes of the College.

or (*b*) the capital to be invested and the income to be applied for the general purposes of the College.

or (*c*) for the following purpose, namely :

or (*d*) the capital to be invested and the income to be applied for the following purpose, namely :

N.B. Strike out the lettering and three of these four alternatives. If (*c*) or (*d*) is left, state the purpose desired.

I declare that the receipt of the Treasurer or other proper officer for the time being of the College shall effectually discharge my executors.
